COMMERCIAL ITEM DESCRIPTION

STARCH, LAUNDRY

The General Services Administration has authorized the use of this commercial item description as a replacement for Federal Specification JJJ-S-701 for all federal agencies.

1. SCOPE. This commercial item description covers laundry starch in powder or granular form which shall be suitable for starching clothing and other articles, using accepted laundry procedures.

2. CLASSIFICATION. The starch shall be of the following types.

2.1 Type I. Thin-boiling starch to be used either cooked or dry.
Type III. Thick-boiling starch to be used either cooked or dry.
Type V. Precooked (instant) starch to be used dry.

3. SALIENT CHARACTERISTICS.

The starch shall be white to cream in color and shall be free from lumps, caking, or any foreign matter. The finished starched products shall have a smooth, even finish with the desired degree of stiffness. The starch shall be lubricated and contain preservative to retard spoilage.

4. REGULATORY REQUIREMENTS.

The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

Beneficial comments, recommendations, additions, clarifications, etc. and any other data which may improve this document should be sent to: General Services Administration, GSA Center (10FTE) Auburn, Washington 98001.

5. QUALITY ASSURANCE PROVISIONS.

Product Conformance. The products provided shall conform to the producer's own drawings, specifications, standards, and quality assurance practices and be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be other wise provided for under the provisions of the contract.

6. PACKAGING. Preservation, packing, and marking shall be as specified in the contract or order.

7. NOTES.

7.1 Source of Documents.

7.1.1 The Code of Federal Regulations (CFR) may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington DC, 20402.

7.2 Types I, III, and V retain the designation and generally correspond to Types I, III, and V of the parent Federal Specification, JJJ-S-701.
