FEDERAL SPECIFICATION

SPARK PLUG

This amendment, which forms a part of Federal Specification W-S-506B, dated June 15, 1977, was approved by the Commissioner, Federal Supply Service, General Services Administration, for use of all Federal agencies.

Page 2

After paragraph 3.2, add extra paragraph 3.2.1 as follows:

"3.2.1 Recycled Materials. Recycled and recovered raw materials should be used to the maximum extent possible in lieu of virgin raw materials as long as these materials do not jeopardize the intended use and fully comply with all contract requirements. Materials used shall be free from defects which would adversely affect the performance or maintainability of individual components or the overall assembly. Materials not specified herein shall be of the same quality used for the intended purpose in commercial practice. None of the above shall be interpreted to mean that the use of used or rebuilt products will be allowed."

Page 4

Paragraph 3.3.5 "Resistors." Revise sentence to read: ".....without damage to the plug or seal."

Page 15

Paragraph 5, delete title "PREPARATION FOR DELIVERY" and substitute with the following: "PACKAGING."

Paragraph 5.1, delete paragraph in its entirety and substitute with the following:

"Packaging requirements. The requirements for packaging for the desired level of protection shall be in accordance with the applicable packaging standard or packaging data sheet specified by the contracting authority (see 6.2)."

Paragraph 6.2(i), delete subparagraph in its entirety and substitute with the following:

"Levels of preservation and packing required (see 5.1)."
