COMMERCIAL ITEM DESCRIPTION

CLOTH, COATED

The General Services Administration has authorized the use of this commercial item description (CID), for all Federal agencies.

1. SCOPE

1.1 Scope. This commercial item description covers coated or laminated cloth intended for use as tablecloths and shelf covers.

2. CLASSIFICATION

2.1 Classification. The coated or laminated cloth shall be of the following color, as specified (see 7.3).

White - FED-STD-595, Color Chip No. 27780
Yellow - FED-STD-595, Color Chip No. 13519
Green - FED-STD-595, Color Chip No. 14193
Red - FED-STD-595, Color Chip No. 11310

3. SALIENT CHARACTERISTICS

3.1 Coated or laminated cloth. The finished cloth shall consist of a non-woven, woven, or knitted cotton, polyester, or cotton/polyester blend base cloth coated or laminated on one side with a synthetic resin pigmented to approximate the color specified and shall meet the requirements listed in Table I. The coated or laminated side shall have a plain or satin finish and shall not strike through to the back of the cloth. The finished cloth shall be 53 ± 1 inches (134.6 ± 2.5 cm) wide by 12 yards +1/2, -0.0 yard (11.0 m + 0.5, - 0.0 m) long and shall be in one continuous piece.

Table I. Minimum requirements for coated or laminated cloth.

Characteristic	Requirement	Test Method
Weight	6.0 oz/sq yd (200.0 g/sq m)	CFFA-700
Blocking	1 or more	CFFA-4
Crocking	AATCC Chromatic Transfer Scale of 3.5	CFFA-7
Colorfastness to light (except red)	Good 1/	CFFA-2 3/
Colorfastness to light (red)	Fair 2/	CFFA-2 3/

1/ Perceptible, but not appreciable (see * below), change in color.
2/ Appreciable (see * below), but not objectionable, change in color.
3/ In lieu of CFFA-2, ASTM G 53: Standard Practice for Operating Light- and Water-Exposure Apparatus (Fluorescent UV-Condensation Type) for Exposure of Nonmetallic Materials may be used.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Engineering Branch (7FXEE), 819 Taylor Street, Fort Worth, TX 76102-6114.

* Appreciable change in color means a change that is immediately noticeable in comparing the test specimen with an original unexposed specimen. If closer inspection or a change of angle of light is required to make apparent a slight change in color, the change is not considered appreciable.

3.2 Workmanship. The coated or laminated cloth shall conform to the quality of product established by this commercial item description and shall function as a durable material appropriate for tablecloths and shelf covers. The finished cloth shall be free from any holes, tears, cuts, streaks, blisters, separation of coating from the base cloth, uncoated areas, grease or oil stain, or foreign matter. No defects affecting function, appearance, or serviceability shall be permitted.

3.3 Measurement system. The values stated in inch-pound units are to be regarded as the standard. The metric values stated in parenthesis are for information purposes only.

3.4 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

4. REGULATORY REQUIREMENTS.

4.1 Regulatory requirements. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

5. QUALITY ASSURANCE PROVISIONS

5.1 Product conformance. The products provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, specifications, standards, and quality assurance practices and be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance.

6. PACKAGING.

6.1 Packaging. Packaging, packing, and marking shall be as specified in the contract or purchase order.

7. NOTES.

7.1 CID based part identification number (PIN). Coated or laminated cloth conforming with this commercial item description shall be identified by a part identification number configuration consisting of identification of a portion of the CID number and color. An example of the part identification number configuration is shown below. This part identification numbering system is intended for identification and cross-indexing of the item within the Federal cataloging system. The following part identification numbering procedure is for government purposes and does not constitute a requirement for the contractor.

Part Identification Numbering System for CID A-A-1214

Example: AA12141 Example: AA12141 = Color - White

```
          ||
          ||____ Color (1 - White, 2 - Yellow , 3 - Green, 4 - Red)
          |_____ Commercial item description number
```

7.2 Referenced documents. The documents referenced in this commercial item description shall be the issues in effect on the date of issuance of the invitation for bids or request for proposals unless otherwise specified. These documents form a part of this commercial item description to the extent specified. In the event of a conflict between this commercial item description and a document referenced herein, this commercial item description shall take precedence.

Copies of AATCC standards and test methods are available from American Association of Textile Colorists and Chemists, PO Box 12215, Research Triangle Park, NC 27709-2215.

Copies of ASTM standards are available from American Society for Testing and Materials, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959.

Copies of CFFA Standard Test Methods are available from Chemical Fabrics and Film Association, Inc., 1300 Sumner Avenue, Cleveland, Ohio 44115-2851.

Copies of Federal standards are available from the Federal Supply Service Bureau Specification Section (3FBP-W), Specification Unit, Suite 8100, 470 E. L'Enfant Plaza, SW, Washington, DC 20407.

7.3 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents (if applicable).

a) Title, number and date of this commercial item description.
b) Color required (see 2.1).
c) The packaging, packing, and marking desired.

7.4 National Stock Numbers (NSNs): The following is a list of NSNs assigned which correspond to this CID. The list may not be indicative of all possible NSNs associated with this CID.

NSN	Color	P/N
8305-00-141-5537	White	AA12141
8305-00-205-3316	Yellow	AA12142
8305-00-205-3318	Green	AA12143
8305-00-205-3319	Red	AA12144

7.5 Supersession data. The FED-STD-595 color chip numbers cited in this CID are cross-referenced below with the Standard Color Card of America cable numbers formerly used.

Color	FED-STD-595	Standard Color Card of America
White	Color Chip No. 27780	Cable No. 80002
Yellow	Color Chip No. 13519	Cable No. 80090
Green	Color Chip No. 14193	Cable No. 80119
Red	Color Chip No. 11310	Cable No. 80042

MILITARY INTERESTS:

NONE: DOD has determined that no military activity has an official interest in this commercial item description.

Preparing Activity:
