COMMERCIAL ITEM DESCRIPTION

PAPER, COPYING, XEROGRAPHIC PROCESSES
(Dual Purpose; White and Colors)

The General Services Administration has authorized the use of this commercial item description, for all Federal Agencies.

1. Scope. This Commercial Item Description covers paper suitable for all dry toner copiers, including high speed copiers, and laser printers.

2. Salient Characteristics. Paper shall conform to the Government Paper Specification Standard JCP O-65, except that the recycled content shall be 20% postconsumer materials, in accordance with Executive Order 12873 (see par. 3.1). In addition, the paper shall conform to all the requirements of this specification, and perform and print satisfactorily in high speed dry toner plain paper copiers, xerographic equipment and laser printers.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to General Services Administration Federal Supply Service, Engineering Branch, 26 Federal Plaza New York, N.Y. 10278.

Distribution Statement A:
Approved for public release;
Distribution is unlimited.

FSC 7530

3.0 Requirements.
3.1. Regulatory Requirements. The contractor shall certify that the minimum content standard shall be no less than 20% postconsumer materials in accordance with Executive Order 12873, section 504 (a), dated October 20, 1993 (See definitions of postconsumer materials and recovered materials in sections 203 and 205). As an alternative to meeting the standards of section 504(a) for all printing and writing papers, the minimum content standard shall be no less than 50% recovered materials that are a waste material byproduct of a finished product other than a paper or textile product which would otherwise be disposed of in a landfill, as determined by the State in which the facility is located, in accordance with Executive Order 12873, section 504 (c), dated October 20, 1993. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

3.2 Labeling of recycled content. The recycled content shall be marked on the ream label and the carton.

3.3 Physical Requirements. In addition to the requirements cited in the JCP document, the paper shall meet the following requirements:

3.3.1 Performance. In lieu of JCP O-65 performance requirement, operating performance shall be checked at 21° C ± 5° C (70° F ± 10° F) and 50% ± 20% relative humidity. A high speed copier (one making more than 85 copies per minute) shall be used for the performance test. There shall be no more than one paper caused jam per 5000 copies with single sided copying, with all copies passing directly from copier into sorter bins allowing a minimum of 100 copies to accumulate in each sorter bin. In addition, there shall be no more than one paper caused jam per 2000 double sided copies, with copies passing directly from copier into sorter allowing a minimum of 100 sheets to accumulate in each sorter bin. The paper shall be capable of being used as an original in the feeder section of the copier, with no jams occurring in the feeder.

3.3.2 Pick resistance. The paper shall have an average pick resistance on each side of not less than 10-A Dennison wax number when tested according to TAPPI T-459.

3.3.3 Workmanship. In addition to the JCP requirements, the paper shall be free from excessive dirt, dust or contaminants which would adversely affect appearance, performance, or the copier or printer rollers or photoreceptor.

4. Quality Assurance Provisions.

4.1 Contractor Certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

4.2 Responsibility for Inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all the inspection requirements as specified herein. Except as otherwise specified, the contractor may utilize his own facilities or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in this Commercial Item Description, where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements.

Sampling and testing for performance (see 3.3.1) shall be in accordance with MIL-STD-105, inspection level S-3 and AQL 1.0. For the purposes of sampling, a lot shall consist of all paper manufactured in the same mill run submitted for inspection at one time. The sample unit shall be one carton, unless otherwise specified. Cartons shall be randomly selected and shall represent the cross-direction, as well as the machine direction of the run. There shall be no failure to meet the performance requirements.

Sampling and testing for pick resistance shall be in accordance with Tappi methods.

For all JCP requirements, testing, when applicable, shall be in accordance with Part 2, Testing Standards and Definitions, of the Government Paper Specification Standards published by the Joint Committee on Printing. (Note: See individual TAPPI's for specific sampling instructions). Acceptance criteria shall be as specified in Part 4, Acceptance Criteria, of the Government Paper Specification Standards published by the Joint Committee on Printing.

5. Applicable Documents and Document Sources. The following documents form a part of this Commercial Item Description to the extent specified herein. Unless otherwise indicated, the issue in effect on the date of invitation for bids or request for proposal shall apply:

5.1 Tappi Standards.

Copies of Tappi Standards are available from the Technical Association of the Pulp and Paper Industry, PO Box 105113, Atlanta, Ga. 30348.

5.2 Federal Standards.

Single copies of Commercial Item Descriptions, federal standards or specifications required by activities outside the Federal Government for bidding purposes are available without charge from General Services Administration Business Service Centers in Boston; New York; Philadelphia; Washington, D. C.; Atlanta; Chicago; Kansas City, MO; Fort Worth; Houston; Denver; Los Angeles; San Francisco; and Auburn, WA.

5.3 Military Standards.

MIL-STD-105, Sampling Procedures and Tables for Inspection by Attributes
Copies of Military Specifications and Standards are available from the Standardization Documents Order Desk, Bldg. 4D, 700 Robbins Ave., Philadelphia, PA 19111-5094.

5.4 Executive Order 12873.

Copies of Executive Order 12873, dated October 20, 1993 may be obtained from The White House Publications Office, New Executive Office Building, White House, Att: Publications, Washington,DC 20500, Phone (202)395-7332.

5.5 JCP Specifications.

JCP specifications may be obtained from Chief Paper Procurement Section, MMPP, U.S. Government Printing Office, North Capital and "H" St., NW, Washington DC 20401.

6. Bleaching. To obtain an acceptable brightness, or color, in accordance with this document, a chemical bleaching process may be used. When specified in the ordering data, the bleaching process shall not include the use of chlorine, chlorine dioxide, hypochlorite, or other chlorine containing compound. Certification of compliance shall be made available upon request by the Government.

7. Packaging, Packing, Labeling and Marking. Packaging, packing, labeling and marking shall be as specified in the contract or order.

8. Ordering Data. Purchasers should select the preferred options permitted herein, and include the following information in procurement documents:

(1) Title, number, and date of this Commercial Item Description
(2) Size
(3) Color
(4) If non-chlorine bleaching is desired (see Par. 6)
(5) Number and location of holes, if desired
(6) Packaging, packing, labeling and marking

MILITARY INTEREST:

NONE: DoD has no registered interest in revisions and amendments to this Commercial Item Description until further notice.
