COMMERCIAL ITEM DESCRIPTION

PIGMENT, LAMPBLACK - DRY

The General Services Administration has authorized the use of this commercial item description as a replacement for TT-P-350B for all Federal Agencies.

1 SCOPE.

This commercial item description covers one type of pigment commercially known as lampblack, for use in paints, sealants, adhesives, rubber, etc.

2. **SALIENT CHARACTERISTICS.**

The pigment shall conform to the requirements as specified in ASTM D 209 for dry pigment, with the following additions

2.1 **Additional requirements.**

(a) The maximum ash content shall be 0.5 percent as determined by ASTM 1208.

(b) The maximum acetone extract shall be 1.0 percent as determined by ASTM D 305.

(c) Delete the "tone when diluted with zinc oxide" requirement.

(d) The mass color and character of tint shall be the same as the National Institute of Standards and Technology (NIST) Sample No. 318 and the tinting strength shall be not less than Sample No. 318, when tested as specified in ASTM D 387. All measurement for mass color, character of tint, and tinting strength shall be determined using the pigment dispersion that provides the maximum tinting strength as determined in Annex A1 of ASTM D 387.

1. The vehicle and white tinting paste shall be that suggested in ASTM D 387.

2. When determining the mass tone color, only the dry color sample will be used.

3. **REGULATORY REQUIREMENTS.**

The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

4 **QUALITY ASSURANCE PROVISIONS.**

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Paints and Chemicals Commodity Center, Engineering and Commodity Management Division (10FTE), 400 15th St. SW, Auburn, WA 98001-6599.

4.1 **Contractor Certification.** The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product offered for sale in the commercial marketplace. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

4.2 **Market Acceptability Criteria.** The item offered must have over $50,000 annual sales of lampblack to the commercial marketplace.

5. **PACKAGING.**

Preservation, packing, and marking shall be as specified in the contract or order.

6. **NOTES.**

6.1 **Part Identification Number (PIN).** The following part identification numbering procedure is for government purposes and does not constitute a requirement for the contractor.

AA2922-P

SIZE: P = pound
F = five pounds
H = one-half pound

A-A-2922

6.2 **Source of documents and standards.**

6.2.1 Paragraph 23.403 of the FAR can be obtained from the contracting officer listed on the solicitation or purchase order.

6.2.2 Copies of ASTM specifications and standards may be obtained from the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.

6.2.3 NIST Sample No. 318 may be obtained from the Standard Reference Materials Office, NIST, EM Building Rm. 207, Gaithersburg, MD. 20899
