DATA ITEM DESCRIPTION
Title: OPTION 1, 2, & 3 COATING THINNING CERTIFICATION REPORT

Number: DI-ENVR-82153
AMSC Number: N9854
Applicable: No
Preparing Activity: SH
Applicable Forms: N/A

Approval Date: 20170823
Limitation: No
GIDEP Applicable: No
Project Number: ENVR-2017-010

Use/Relationship: This DID is used to obtain and track emission data and certification of each preservation coating to be thinned upon option 1, 2 and 3 thinning requirements.

This DID contains the format and content preparation instructions for the data product generated by the specific and discrete task requirements as specified in NAVSEA Standard Item 009-97, Shipbuilding and Ship Repair Operations National Emission Standard for Hazardous Air Pollutants (NESHAPS) for Surface Coating Information.

This DID contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

The reference document cited in this DID can be obtained as specified in the contract.

Requirements:

Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revision, shall be specified in contract.

Format. The report shall be in the format similar to that of Attachment A of NAVSEA Standard Item 009-97, Shipbuilding and Ship Repair Operations National Emission Standard for Hazardous Air Pollutants (NESHAPS) for Surface Coating Information.

Content. The report shall contain all of the information specified in Attachment A of NAVSEA Standard Item 009-97, Shipbuilding and Ship Repair Operations National Emission Standard for Hazardous Air Pollutants (NESHAPS) for Surface Coating Information; and shall also contain the following:

Name and hull number of ship
Contract number and job order
Work Item
Work item paragraph number(s)
Standard item paragraph number(s)
