DATA ITEM DESCRIPTION
Title: NAVAIR PORTABLE SOURCE INITIATIVE (NPSI) DATASET

Number: DI-MGMT-82125
AMSC Number: N9807
DTIC Applicable: N/A
Preparing Activity: AS
Applicable Forms: N/A

Approval Date: 20170518
Limitation: N/A
GIDEP Applicable: N/A
Project Number: MGMT-2017-022

Use/relationship: The NPSI dataset contains the combination of refined source data, metadata descriptions, and data license information.

The purpose of the NPSI is to provide maximum database reuse across Type/Model/Series platforms to lower the life cycle cost of out-the-window visual terrain, 3-D models, and sensor databases, along with dataset archive capability, and short-notice distribution services.

This DID contains the format, content, and intended use information for a NPSI data deliverable invoked by a solicitation.

Requirements:

1. Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

(a) NPSI-1019-002.2 - NAVAIR PORTABLE SOURCE INITIATIVE (NPSI) DATA PREPARATION STANDARD (DPS), NPSI DPS Version 2.2, dated 22 May 2012 (Copies of this document are available online at http://www.dtic.mil/docs/citations/ADA570726 or from Naval Air Warfare Center, Training Systems Division, Code 4625,12211 Science Drive, Orlando, FL 32826-3275.)

(b) NPSI-1020-002.4 - NAVAIR PORTABLE SOURCE INITIATIVE (NPSI) STANDARD FOR REUSABLE SOURCE DATASET METADATA (RSDM), NPSI RSDM Version 2.4, dated 26 Sep 2012 (Copies of this document are available online at http://www.dtic.mil/docs/citations/ADA571007 or from Naval Air Warfare Center, Training Systems Division, Code 4625, 12211 Science Drive, Orlando, FL 32826-3275.)

(c) NPSI-1021-002.2 - NAVAIR PORTABLE SOURCE INITIATIVE (NPSI) STANDARD FOR MATERIAL PROPERTIES REFERENCE DATABASE (MPRD), NPSI MPRD Version 2.2, dated 26 Sept 2012 (Copies of this document are available online at http://www.dtic.mil/docs/citations/ADA571006 or from Naval Air Warfare Center, Training Systems Division, Code 4625, 12211 Science Drive, Orlando, FL 32826-3275.)

2. Format. The contractors format is acceptable.

2.1. NPSI Final Dataset shall be in the formats and structure defined in reference (a) section 4.1.

2.2. NPSI Interim Dataset shall be in formats and structure defined in reference (a) section 4.3.

2.3. NPSI Metadata shall be in XML format that validates against the NPSI schema defined in reference (b).

2.4. Material Property Reference Database additions shall be in XML format that validates against the schema defined in reference (c).

2.5. The NPSI dataset's license files required in 3.4 shall be in contractor format.

3. Content. The NPSI will contain the following information

3.1. NPSI Final Dataset per reference (a) section 5.1.

3.1.1. XML description of material properties used by the system as described in reference (a) section 2.1.8 and reference (c).

3.2. NPSI Interim Dataset per reference (a) section 5.2.

3.3. NPSI Metadata descriptions per reference (a) section 5.3.

3.3.1. Metadata shall include references to all files, including legacy Government-Furnished Information (GFI) data not included in the NPSI datasets, used to build the database.

3.4. The license files of the dataset shall include the following:

3.4.1. The license agreement from the original license holder.

3.4.2. The license agreement for any derivative work by the developer. A derivative work is a work based on preexisting works, such as any addition, improvement, update, modification, transformation, adaptation of a work.

3.4.3. The point of contact for modifications to the licenses.

End of DI-MGMT-82125
