DATA ITEM DESCRIPTION
Title: NAVAL AVIATION CYBER ANALYSIS OF COMMERCIAL OFF-THE-SHELF AND NON-DEVELOPMENTAL ITEMS

Number: DI-MGMT-82145A
AMSC Number: N10334
DTIC Applicable: N/A
Preparing Activity: AS
Applicable Forms: N/A

Approval Date: 20220728
Limitation: N/A
GIDEP Applicable: N/A
Project Number: MGMT-2022-018

Use/relationship: This Data Item Description (DID) contains the format and content for the analysis that demonstrates commercial off-the-shelf (COTS) and non-developmental items (NDI) are appropriately configured, integrated, software / hardware / firmware is controlled, and any unique risks they pose are mitigated as tailored in the system spec.

This DID contains the format, content, and intended use information for the data product resulting from the work task described in the contract Statement of Work (SOW).

This DID supersedes DI-MGMT-82145.

Requirements:

1. Referenced Documents: The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

2. Format: Contractor format is acceptable.

3. Content: The analysis shall contain the following:

3.1. Provide a description of the COTS/NDI item and the functions/tasks the item will perform with in the system.

3.2. The as-built configuration of the COTS/NDI item as delivered prior to incorporation into the system. This shall include hardware, software, and firmware. Identified cyber risks prior to modification shall also be included.

3.3. Provide information on how the COTS/NDI item has been modified and/or configured to meet the needs of the system. Include how these modifications/configuration updates address cyber risks identified in the previous paragraph.

Check the source to verify that this is the current version before use.

3.3.1. Include a recommended future support concept of the COTS/NDI based on modification(s) made.

3.4. Include a list and description of unmitigated cyber risks that modifications/configuration updates do not address.

End of DI-MGMT-82145A
