DATA ITEM DESCRIPTION
Title: NAVAL AVIATION SUPPLY CHAIN RISK MANAGEMENT (SCRM) SUBCONTRACTOR ANALYSIS

Number: DI-MGMT-82148A
AMSC Number: N10063
DTIC Applicable: No
Preparing Activity: AS
Applicable Forms: N/A

Approval Date: 20190807
Limitation: N/A
GIDEP Applicable: Yes
Project Number: MGMT-2019-021

Use/Relationship: This Data Delivery Item contains the format, content and is intended use information for the Naval Aviation Supply Chain Risk Management (SCRM) status report.

This DID contains the format, content, and intended use information for the data product resulting from the work task.

This DID supersedes DI-MGMT-82148.

Requirements:

1. Referenced Documents: The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

1.1. Individual program office program protection plan.

1.2 National Institute of Standards and Technology (NIST) Special Publication (SP) 800-161, Supply Chain Risk Management (SCRM) Practices for Federal Information Systems and Organizations, April 2015. Copies of this document can be found at https://csrc.nist.gov/publications/detail/sp/800-161/final

2. Format: Contractor format is acceptable.

3. Content: The report shall contain the following:

3.1. Explain criticality analysis process.

3.2. Provide a list of critical components.

3.3. Provide supplier information for all critical components.

3.4. Provide assessment of any threat to critical components from suppliers and indicate countermeasures taken to mitigate the threat(s).

3.5. Provide counterfeit prevention plan for protection of critical components.

Check the source to verify that this is the current version before use.

3.6. Specify assurance measures to ensure no malicious intent is designed into critical component.

3.7. Describe SCRM security controls implementation per NIST SP 800-161.

4. Objective Quality Evidence (OQE) is any statement of fact, either quantitative or qualitative, pertaining to the quality of a product or service based on observations, measurements, or tests which can be verified and is required in sufficient detail to describe the data elements in the Statement of Work.

4.1 Distribution Statement, as appropriate, in accordance with Department of Defense Instruction (DoDI) 5230.24, Distribution Statements on Technical Documents (Copies of this document can be obtained at: https://www.esd.whs.mil/). Classification markings, as necessary, in accordance with DoD Manual (DoDM) 5200.01, Volume 2, DoD Information Security Program: Marking of Information. (Copies of this document can be obtained at: https://www.esd.whs.mil/).
