DATA ITEM DESCRIPTION

Title: TRAINING SYSTEMS UTILIZATION REPORT

Number: DI-PSSS-82161A
AMSC Number: N10683
DTIC Applicable: No
Preparing Activity: MC
Applicable Forms: N/A

Approval Date: 20260731
Limitation: N/A
GIDEP Applicable: No
Project Number: PSSS-2026-004

Use/relationship: The Training Systems Utilization Report (TSUR) provides the data necessary to determine the cost benefit of training, cost avoidance, track training efficiencies, operational availability of training systems, and enhance training records. The TSUR contains the training data required to perform analyses of the training accomplished.

a. This DID contains the format, content, and intended use information for the data deliverable resulting from the work task described in the solicitation.
b. It is not intended that all the requirements contained herein be applied to every program or program phase. Government may tailor or delete portions or individual data requirements of this DID as needed.
c. This DID supersedes DI-PSSS-82161.

Requirements:

1. Reference Documents. None.

2. Format. The TSUR shall be delivered in a Government provided format (e.g., MS Excel). This approved format shall be used for all submissions. Any suggested revisions to the format shall be approved by the Government prior to implementation.

3. Content. The TSUR shall contain the following training data:
   a. Training Events & Exercises
      (1) Dates
      (2) System/Training Name/Identifier utilized for training
      (3) Location
      (4) Number of trainees trained (per device as applicable)
      (5) Total hours operated (per device as applicable)
      (6) Type of exercise
      (7) Units trained: Identify which units received training.
      (8) Weapons utilized: Identify which weapons are utilized in training per training event.

Check the source to verify that this is the current version before use.

(9) Ammo utilized: Identify ammo quantity by type that is utilized in training per blanks, and simulated rounds (if the system simulates fires, provide round count per Department of Defense Identification Code [DODIC]).
(10) Equipment issued: Identify equipment issued by type that is utilized in the training per event. This should include system specific equipment and peripheral equipment needed for training.
(11) Trainees per system: Identify quantity of trainees trained on each system.
(12) Miles driven: Identify quantity of miles driven per simulated vehicle.
(13) Scenarios trained: Identify quantity for each scenario used for training.
(14) Mission Essential Tasks (METs) and Training and Readiness (T&R) events trained.
(15) Scenarios failed by trainees: Identify quantity for each scenario of trainees that fail scenarios.
(16) System set-up activities and time required.
(17) System tear-down activities and time required.
(18) Units scheduled: Unit designations (unit name and organization).
(19) Unit no show: Units who register for and schedule training but do not show up or cancel less than forty-eight (48) hours before training commencement.
(20) Unit no notice show: Units who show up for training without scheduling training or notify with less than forty-eight (48) hours' notice before training commencement.
(21) Individuals scheduled: Number of trainees who are scheduled for training.
(22) Individual no show: Number of trainees who register for and schedule training but do not show up.
(23) Individual no notice show: Number of trainees who show up for training without notice.
(24) Training disqualification: Number of trainees who do not commence training due to disqualification.
(25) Commence: Number of trainees who are qualified and start training.
(26) Med drop: Number of trainees who commence a training course but leave the training site due to medical reasons, do not attempt to complete the entire training, and do not complete the course.
(27) Percentage of non-USMC (U.S. Military): Non-USMC trainees out of the total number of trainees who commence training.
(28) Non-USMC commence (Joint Forces): Number of non-USMC Joint Forces trainees who commence training.
(29) Percentage of non-USMC (Joint Forces): Non-USMC Joint Forces trainees out of the total number of trainees who commence training.

b. Formal Training Courses
(1) Units scheduled: Unit designations (unit name and organization).
(2) Unit no show: Units who are scheduled for training but do not show up or cancel less than forty-eight (48) hours before training commencement.

Check the source to verify that this is the current version before use.

(3) Individuals scheduled: Number of trainees who register for and schedule academic or practical device training.
(4) Individual no show: Number of trainees who register for and schedule training but do not show up.
(5) Training disqualification: Number of trainees who do not commence training due to disqualification.
(6) Commence: Number of trainees who are qualified and start training.
(7) Percentage of non-USMC (U.S. Military): Non-USMC trainees out of the total number of trainees who commence training.
(8) Non-USMC commence (Joint Forces): Number of non-USMC Joint Forces trainees who commence training.
(9) Percentage of non-USMC (Joint Forces): Non-USMC Joint Forces trainees out of the total number of trainees who commence training.
(10) Unit recall: Number of trainees who commence a training course but are recalled by their unit from the training, leave the training site, do not attempt to complete the entire training, and do not complete the course.
(11) Med drop: Number of trainees who commence a training course but leave the training site due to medical reasons, do not attempt to complete the entire training, and do not complete the course.
(12) Drop on request: Number of trainees who commence a training but provide notice during the training that they will not continue the training, do not attempt to complete the entire training, and do not complete the course.
(13) No return: Number of trainees who commence training but leave or fail to return to the training site, do not attempt to complete the entire training, do not complete the course, and do not provide an explanation.
(14) Total pass: Number of trainees who participate in an entire course, master all course objectives and exercises, and complete the course.
(15) Late: Number of trainees who schedule training and show up 30 minutes or more beyond the scheduled training commencement time.

c. Operational Hours
(1) Training system operational availability (%) based on contractual definition of operational availability.
(2) Training systems hours available.
(3) Training systems hours utilized for training.
(4) Training systems non-operational hours by type.
(a) Preventative maintenance hours
(b) Corrective maintenance hours
(c) Other non-operational hours

Check the source to verify that this is the current version before use.

d. Skills Measurement – All feedback surveys and pre- and post-tests shall be developed or approved by the Government prior to administration.
   (1) Distribute, collect, consolidate, and report trainee reactions with feedback surveys.
   (2) Training system pre-test results.
   (3) Training system post-test results.
   (4) Number of training iterations between pre- and post-tests.
   (5) Scenario, task, or other identifying information of training iterations completed between pre- and post-tests.

End of DI-PSSS-82161A
