MIL-C-43251C
AMENDMENT-1
11 August 1986

MILITARY SPECIFICATION

CLOTH, PILE, SYNTHETIC FIBER PILE

This amendment forms a part of Military Specification MIL-C-43251C, dated 8 February 1985, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 2

2.3: Delete and substitute:

"2.3 Order of precedence. In the event of a conflict between the text of this document and the references cited herein (except for associated detail specifications, specification sheets or MS standards), the text of this document shall take precedence. Nothing in this document, however, shall supersede applicable laws and regulations unless a specific exemption has been obtained."

PAGE 3

3.1, line 2, after "and shall": Add, "unless otherwise indicated (see 3.3.2),".

3.2.2.1, 3.2.2.2, and 3.2.2.3, line 1: Delete "made" and substitute "knitted" in three places.

3.3.1: Delete and substitute:

"3.3.1 Matching. The color and appearance of the dyed and finished cloth shall match the standard sample when viewed under filtered tungsten lamps which approximate artificial daylight having a correlated color temperature of 7000 ± 500 K, with illumination of 100 ± 20 foot candles, and shall be a good match to the sample under incandescent lamplight at 2300 ± K. Because of directional effects, the standard and the sample to be compared shall be brushed and viewed in the same direction relative to construction and to angle of lighting.

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

PAGE 4

3.3.2 thru 3.3.2.3: Delete in entirety and substitute:

"3.3.2 Colorfastness.

3.3.2.1 Colorfastness (class 1). The finished class 1 cloth shall show fastness to laundering equal to or better than the standard sample or equal to or better than the rating of 'good' when tested as specified in 4.2.3.

3.3.2.2 Colorfastness (classes 2 and 3). The finished class 2 and class 3 cloth shall show fastness to perspiration, laundering, and dry cleaning equal to or better than the standard sample, or equal to or better than a rating of 'good' when tested as specified in 4.2.3. The cloth shall show fastness to crocking equal to or better than the standard sample or shall have an AATCC Chromatic Transference Scale rating not lower than 3.5 when tested as specified in 4.2.3.

3.3.2.3 Colorfastness (class 4). The finished class 4 cloth shall show fastness to perspiration, laundering, and light equal to or better than the standard sample, or equal to or better than a rating of 'good' when tested as specified in 4.2.3. The cloth shall show fastness to crocking equal to or better than the standard sample or shall have an AATCC Chromatic Transference Scale rating not lower than 3.5 when tested as specified in 4.2.3."

PAGE 5

3.5: Delete third sentence and substitute:

"For class 4 cloth an acrylic type resin shall be applied to the back of the cloth as a bonding or anti-curl agent. For classes 1, 2 and 3 cloth an acrylic type resin application shall be permitted."

Add the following:

"4.1.2 Responsibility for compliance. All items must meet all requirements of sections 3 and 5. The inspection set forth in this document shall become a part of the contractor's overall inspection system or quality program. The absence of any inspection requirements in the document shall not relieve the contractor of the responsibility of assuring that all products or supplies submitted to the Government for acceptance comply with all requirements of the contract. Sampling in quality conformance does not authorize submission of known defective material, either indicted or actual, nor does it commit the Government to acceptance of defective material."
