INTERIM AMENDMENT
TO
FEDERAL SPECIFICATION

INCINERATOR, PORTABLE, CLASSIFIED PAPER WASTE, SECURITY

This interim amendment was developed by Federal Supply Service, General Services Administration, Washington, DC 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward any recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification FF-I-525A, dated June 22, 1970.

PAGE 1

Paragraph 1.1 - Delete text in its entirety and substitute the following:

"This specification covers emergency use type, portable incinerators which are designed to conform to the standards for security equipment as set forth in the 'National Security Council Directive Governing The Classification, Downgrading, Declassification And Safeguarding Of National Security Information.' The incinerators are intended for use as specified in 6.1."
