INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

HANDLES, MOP (WET)

This interim amendment was developed by General Services Administration, Federal Supply Service, Washington, D. C. 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification NN-H-101E dated May 8, 1962.

PAGE 1

Paragraph 1.2.1, Type I, Class 2 - After "Steel" insert "or aluminum".

PAGE 3

Paragraph 3.1 - Delete the first sentence and substitute the following: "The mop handle shall consist of wood, steel or aluminum to which are attached metal fixtures for securely holding a mop."

Paragraph 3.2.1, first sentence - After "white oak" insert "ramin (Gonystylus spp.)".

Paragraph 3.2.2 - Delete in its entirety and substitute the following:

3.2.2 Steel or aluminum. At the option of the contractor, the tubing for the handles may be of steel or aluminum. Steel tubing shall be AISI 1020 to 1030 strip steel of not less than 0.029-inch wall thickness. Aluminum tubing shall be 3000 series of aluminum alloys of not less than 0.057-inch wall thickness and the temper shall be strain-hardened and partially annealed. At the option of the manufacturer, the tubing shall be of seamless construction or welded and shall be in one section measuring not less than 7/8-inch outside diameter.

Paragraph 3.2.2.1, first sentence - After "steel" insert "or aluminum". Second sentence - Delete "steel" and substitute "metal".

Paragraph 3.3.1.1, second sentence - After "steel" insert "or aluminum".

PAGE 4
