VV-K-211d
AMENDMENT—2
May 6, 1966

SUPERSEDING
Int. Amendment—1 (Navy-Ships)
August 21, 1964

FEDERAL SPECIFICATION

KEROSENE

This amendment, which forms a part of Federal Specification VV-K-211d, dated July 20, 1962, was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

PAGE 2

Paragraph 3.2, subitem (e): Delete and substitute:

(e) *Flame characteristic at end of test.* At the end of the test, the width of the flame shall not vary more than 1/6 inch and the height of the flame shall not have lessened (or lowered) by more than 1/8 inch from the respective measurements recorded at the start of the test.

Paragraph 4.1: Delete and substitute:

4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements.
