COMMERCIAL ITEM DESCRIPTION

TIP, PIPET (Plastic, Disposable)

The General Services Administration has authorized the use of this Commercial Item Description.

This Commercial Item Description covers a disposable plastic pipet for use with one type of automatic dispensing pipettors designated as Lancer pipettors.

Salient Characteristics:

Shall be a disposable polypropylene pipet tip for use with Lancer pipettors that dispense precise volumes of liquid reagents.

Shall have a 500 microliter volumetric capacity.

Shall be suitable for use with Lancer pipettors with volumetric dispensing ratings in the range that includes 10 to 500 microliters.

Shall be fabricated of polypropylene material with non-wetting characteristics that result in complete dispensing of a liquid reagent. The polypropylene material shall have sufficient optical clarity for a visual check to be made of the level of a liquid reagent that is drawn into the bore by the plunger action of an attached Lancer pipettor.

Shall be designed to fit Lancer pipettor. When attached to a Lancer pipettor and positioned vertically, the liquid level of rated volume drawn into the bore (for the appropriate volumetric size pipettor) shall not make contact with the pipettor nozzle.

Workmanship. The pipet tip shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing one thousand pipet tips, as specified, constitutes one unit.

AMSC N/A FSC 6640

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and testing. Inspections and testing shall be conducted on the pipet tip in accordance with commercial practice. Sampling for inspections and testing shall be in accordance with commercial practice.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. (Intermediate/exterior package quantities, labeling, and marking must be specified in the contract and/or order.)

NOTE: The following National Stock Number is covered by this document.
