COMMERCIAL ITEM DESCRIPTION

TOOTHBRUSH, ADULT'S (MULTITUFT)

The General Services Administration has authorized the use of this commercial item description, for all federal agencies.

This commercial item description covers toothbrushes for individual use by adults for personal hygiene. The brush requirements are similar to a commercial SOFT adult's toothbrush, wherein the commercial designation for adult's toothbrushes is "soft", "medium", and "hard".

1. Salient characteristics.

1.1 Type I (figure 1) and Type II toothbrushes shall have a rounded leading end, shaped neck, and flat, even working surface For Type II brushes, the neck-to-handle angle (angle A) shall be 10 to 15 degrees. (figure 2 and figure 2a). The head, neck, and handle shall be molded in one piece from Grade A quality polypropylene.

1.2 The Type I and Type II toothbrush shall meet the following requirements:

Block length, overall, (minimum)	152 mm (6 inches)
Block thickness (minimum)	4.8 mm (3/16 inch)
Head molding length (minimum)	22 mm (7/8 inch
Head molding width (minimum)	9 mm (23/64 inch)
Number of tuft holes	30 - 60
Filament ends per tuft (minimum)	30
Filament length clear of block (minimum)	10 mm (0 406 inch)
Filament diameter	0.006 - 0.008 inch

1.3 The toothbrush shall have a minimum of three rows of bristle tufts The tufts shall be uniformly spaced and symmetrically located. Tufts shall be firmly anchored in the holes either by nickel-silver slugs or stapling

1.4 Synthetic filaments The filament for the tuft material shall be a premium quality nylon. The ends of the filaments shall be rounded so that sharp points and rough edges that could cause injury to the gums are eliminated.

Beneficial comments, recommendations, additions, deletions clarifications, etc. and any data which may improve this document, should be sent to: GSA, Paints & Chemicals Commodity Center, 400 15th Street, S.W , Auburn, WA 98001

DISTRIBUTION STATEMENT: Approved for public release.
Distribution is unlimited.

2 Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract

3. Preservation, packaging, packing, labeling and marking Unless otherwise specified, preservation, packaging and packing shall be to the degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and external package quantities and labeling and marking shall be specified in the contract and or order.
