COMMERCIAL ITEM DESCRIPTION

AIRBRUSH, ARTIST
(KIT)

The General Services Administration has authorized the use of this commercial item description.

A single action artists airbrush kit without compressor. With a needle adjustor to control the spray from 1/16 inch. The kit shall meet, but is not limited to the following salient characteristics.

Salient characteristics:

1 Airbrush, Single Action, without compressor;
1 3/4 to 1 ounce color bottle/paint jar, with cap for storage;
1 2to 3 ounce color bottle/paint jar, with cap for storage;
Color bottle/paint jar covers for attachment of color bottle/paint jar to airbrush;
1 for each size color bottle/paint jar or 1 that is interchangeable for use with both sizes of color bottle/paint jars.
1 Multipart head, medium size;
1 Needle, medium size;
1 Self centering tip, medium size;
1 Rigid plastic container to hold complete kit.

Workmanship. The completed kit shall present a neat, finished appearance and shall exhibit no evidence of sharp, jagged, rough, or other unfinished components. The kit shall be free from defects which may affect its durability, serviceability, and appearance.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. Packaging, packing, and marking shall be as specified in the contract or order.
