# COMMERCIAL ITEM DESCRIPTION

## ADHESIVE, SEMI-SOLID, STICK FORM, WITH DISPENSER

This Commercial Item Description has been approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

This Commercial Item Description covers a general purpose stick adhesive, with dispenser. The commercially available adhesive shall be suitable for bonding paper, cardboard, fabrics and polystyrene foam as well as mounting photographic prints, maps, drawings, and charts.

**Salient Characteristics:**

**Type and size.** The stick adhesive (glue stick) shall conform to the following types and sizes:

**Type**

**Type I:** White on application, dries clear.

**Type II:** Colored on application, dries clear.

**Size**

**Small:** 5 gms (0.2 oz) min. to 10 gms (0.3 oz) max.

**Large:** 21 gms (0.7 oz) min. to 36 gms (1.3 oz) max.

**Adhesive material:**

a. The adhesive shall be even spreading and shall not contain lumps, globs, dirt or other foreign material. The adhesive shall not be stringy.

b. The adhesive shall be visible when applied but shall dry clear.

c. The effective drying time shall be twenty minutes maximum.

**DISTRIBUTION STATEMENT:** Approved for public release. Distribution is unlimited.

FSC 8040

Check the source to verify that this is the current version before use.

d. Fibers of the paper shall remain embedded in the adhesive when bonded papers are separated 20 minutes after adhesive application. The two papers shall be joined using finger pressure for 10 seconds.

e. The adhesive shall not discolor the material being bonded nor the substrate to which it is applied.

f. The adhesive shall not wrinkle, shrink, or curl the material being bonded or the substrate to which it is applied.

**Dispenser Design:**

a. The dispenser shall be constructed of impact resistant material.

b. The dispenser shall be that offered in the commercial marketplace.

c. The dispenser shall be supplied with a well fitting cap.

d. A mechanism for advancing and retracting the adhesive shall be provided.

e. Instructions for use shall be printed on the dispenser.

**Certification.** The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Packaging, packing and marking. The adhesive sticks shall be packaged in accordance with normal commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification or Uniform Freight Classification. Marking shall be as specified in the contract or order.

**PREPARING ACTIVITY:**

**GSA - FSS**
