COMMERCIAL ITEM DESCRIPTION

JACK, HYDRAULIC, HAND (REMOTE CONTROL)

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification GGG-J-63.

This commercial item description covers jacks consisting of a hydraulic hand pump with a reservoir, a hydraulic ram, and a hydraulic hose assembly connecting the pump and ram.

Salient characteristics:

Capacity. Jacks shall be furnished in the following capacities, as specified by the National Stock Number. The rated capacity of the jack shall be the load that the jack can safely raise to its maximum height, and maintain for at least 10 minutes without lowering more than 1/4 inch.

	PUMP		RAM		
National Stock Number (NSN)	Minimum Reservior capacity (cubic inch)	Minimum Displacement per stroke (cubic inch)	Minimum Rated capacity (tons)	Maximum Collasped height (inches)	Minimum Extended height (inches)
5120-00-293-0075	10	.05	4	1-5/8	2-1/4
5120-00-805-5145	10	.05	4	11-3/8	14-3/4
5120-00-293-0078	40	.15	10	5-7/8	7
5120-00-293-0076	40	.15	10	13-1/4	17-1/2
5120-00-293-0077	40	.15	20	11-1/2	16-1/4
5120-00-293-1610	40	.15	50	11	16-5/8

Pump. The pump shall have a flat mounting base and a suitable operating lever.

Hose assembly. The hose assembly shall be compatible for use with the pump and ram and shall have a minimum length of 6 feet.

Ram. Rams shall be single acting (push only), and without a center hole.

Marking. Jacks shall be legibly and permanently marked with the rated capacity of the jack and the manufacturer's name or trademark.

Workmanship. The jacks shall be free from imperfections which may affect their appearance, serviceability, or durability. All parts shall be cleaned and free of extraneous materials, and burrs and sharp edges removed. Exposed surfaces shall be coated or finished in accordance with the manufacturer's standard practice, except that cadmium plating shall not be used.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing and marking. The jack shall be packaged in accordance with normal commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide product protection against loss and damage during mulitple shipments, handling and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.
