MILITARY SPECIFICATION

HARNESS; TEST BENCH,

FOR INTERPHONE-RADIO CONTROL SET AN/AIC-4

This specification has been approved by the Bureau of Aeronautics, Department of the Navy.

1. SCOPE AND CLASSIFICATION

1.1 Scope.- This specification covers all the requirements for electronic test bench harnesses for use with AN/AIC-4 equipment.

1.2 Classification.-

1.2.1 Type.- Electronic test bench harnesses covered by this specification shall be of one type only.

2. APPLICABLE SPECIFICATIONS AND DRAWINGS

2.1 General.- The following specification and drawings of the issue in effect on the date of invitation for bids form a part of this specification.

2.2 Specifications.-

Military

MIL-H-15362(Aer) Harnesses; Test Bench, Electronic, General Specification for

2.3 Drawings.-

Naval Aircraft Factory

401727	Plate - Track - Electronic Test Equipment - Weld Assembly
500978	Track - Electronic Test Equipment - Assembly and Details
603746	Rack - AN/AIC-4 - Electronic Test Equipment - Assembly
603753	harness - Test Bench - AN/AIC-4 - Final Assembly
603794	Instruction Sheet - AN/AIC-4 - Test Bench Harness

2.4 Availability of Specifications and Drawings.-

2.4.1 When requesting specifications and drawings, refer to both title and number.

2.4.2 Copies of this specification and applicable specifications and drawings may be obtained upon application to the Commanding Officer, Naval Air Station, Johnsville, Pennsylvania, Attention: Technical Records Division.

3. REQUIREMENTS

3.1 General.- Electronic test bench harness for the type AN/AIC-4 equipment shall conform to the requirements of Specification MIL-H-15362(Aer) except as modified herein. When the general specification is in conflict with the detail specification, the detail specification shall govern. When the drawings conflict with the detail specification, the applicable drawings shall govern.

3.2 Track Plate.- The track plate shall conform to the requirements of Drawing 401727.

3.3 Test Console.- The test console shall conform to the requirements of Drawing 500978.

3.4 Rack.- The test rack shall conform to the requirements of Drawing 603746.

3.5 Cables.- Cable assemblies shall conform to the requirements of Drawing 603753.

Check the source to verify that this is the current version before use.

3.6 Instruction Sheet.- A copy of Drawing 603753 shall be furnished with each test bench harness. A reproducible print of Drawing 603753 may be obtained upon application to the Manager, Naval Aircraft Factory, Naval Air Material Center, Philadelphia 12, Pennsylvania, Attention: Technical Records Section.

3.7 Marking.- The harness shall be marked in conformance with the applicable drawings specified herein except that the following nameplate shall be included on each harness.

3.7.1 Nameplate.- A nameplate in conformance to the requirements of Specification MIL-H-15362(Aer) shall identify each harness.

4. SAMPLING, INSPECTION AND TEST PROCEDURE

4.1 General.- Sampling, inspection and test procedure shall conform to the requirements of Specification MIL-H-15362(Aer) except as noted in Section 4.

4.2 Tests.-

4.2.1 Individual Tests.- Each harness submitted for acceptance shall be subject to the tests described in paragraphs headed as follows:

Continuity
Dielectric Strength
Operation (Room Temperature)

4.3 Test Methods.-

4.3.1 Continuity.- Each circuit shall be checked to prove it continuous.

4.3.2 Dielectric Strength.- With a potential of 500 volts rms 60 cycles applied between all terminals not in the same circuit and between each terminal and ground, no breakdown in voltage shall occur.

4.3.3 Operation (Room Temperature).- Each harness shall be tested for free movement of sliding or rotating parts to determine satisfactory operation.

4.3.4 Preproduction Tests.- The qualifying agency will make all inspections and tests necessary to determine that the preproduction sample harness satisfies the requirements of this specification. The manufacture of additional harnesses prior to Bureau of Aeronautics approval of the preproduction sample shall be at the contractor's risk.

5. PREPARATION FOR DELIVERY

5.1 General.- The preservation, packaging, packing and marking requirements shall conform to Specification MIL-H-15362(Aer).

6. NOTES

6.1 General.- Section 6 of Specification MIL-H-15362(Aer) is applicable to this specification.

6.2 Intended Use.- Electronic test bench harnesses covered by this specification are intended for use with standard electronic workbenches in testing, adjusting, and repairing AN/AIC-4 equipment.
