MILITARY SPECIFICATION

SUPPORT EQUIPMENT AERONAUTICAL SPECIAL
GENERAL SPECIFICATION FOR THE DESIGN OF

This amendment forms a part of Military Specification MIL-S-8512D, dated 19 July 1974, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 2

2.1, under SPECIFICATIONS, Military, delete:

"MIL-T-21200 Test Equipment for use with Electric and Fire Control Systems, General Specification for".

and substitute:

"MIL-T-28800 Test Equipment for use with Electrical and Electronic Equipment, General Specification for".

* Add:

"MIL-W-22248 Weldment, Aluminum and Aluminum Alloy".

PAGE 5

* 2.2, add:

"American Welding Society

AWS B3.0 Welding Procedures and Performance Qualification
AWS D1.1 Structural Welding Code

(Copies of AWS standards may be obtained from the American Welding Society, 2501 N.W. 7th St., Miami, FL 33125.)"

PAGE 7

* 3.2.8, line 4: Delete "Federal" and substitute "National".

PAGE 8

* 3.3.1.6, delete and substitute:

"3.3.1.6 Warning streamer. Maintenance, safety, or protective equipment installed on the aircraft while it is on the ground, which will or may create an unsafe condition for flight or operation of the aircraft or of an aircraft system, shall have a streamer conforming to MS 51700 securely attached. The streamer shall be of sufficient length to ensure visibility on a walk-around inspection of the aircraft."

PAGE 16

3.4.6.7, delete and substitute:

"3.4.6.7 Electronic test equipment. The design, construction and qualification of equipment for testing electrical and electronic equipment shall conform to the requirements of MIL-T-28800."

PAGE 23

* Table II, change:

"Welding (Steel)	MIL-W-8611
Tests, A/C Welding Operator's Art	MIL-T-5021
Welding (Aluminum)	MIL-W-8604

to read:

"Welding and Welder Qualification (Steel)	AWS D1.1
Welding and Welder Qualification (Aluminum)	AWS B3.0".

* 3.9.1, delete and substitute:

"3.9.1 Qualification of welding. All steel welding, welding procedures, welders, welding operators and tackers shall be qualified to the requirements of the American Welding Society (AWS) Structural Welding Code (D1.1). The level or degree of Non-Destructive Testing (NDT) for steel joint qualification shall be stipulated by the contract technical specification. All aluminum welding, welding procedures, welders, welding operators and tackers shall be qualified to the requirements of AWS Welding Procedures and Performance Qualification Standard (B3.0). Aluminum weldments shall meet the requirements of MIL-W-22248 (Class 3 or Class 4 as determined by the contract technical specification). Welds and welding currently qualified to MIL-T-5021 and MIL-W-8611 is acceptable without requalification to AWS requirements."

PAGE 26

* 6.2.1, add:

"p. Level or degree of Non-Destructive Testing required for welded steel joint qualification (see 3.9.1)."
