GG-C-00447A(GSA-FSS)
AMENDMENT-1
October 2, 1970

AMENDMENT

TO

INTERIM FEDERAL SPECIFICATION

CLOCK, ALARM (GENERAL PURPOSE)

This amendment was developed by the General Services Administration, Federal Supply Service, Washington, D. C. 20406, based upon currently available technical information. The General Services Administration has authorized this amendment as a part of Interim Federal Specification GG-C-00447a(GSA-FSS), dated July 25, 1966.

PAGE 1

Paragraph 2.1, under subparagraph heading "Federal Specifications," add:

PPP-B-566 - Boxes, Folding, Paperboard.
PPP-B-636 - Box, Fiberboard.
PPP-B-676 - Boxes, Set-up Paperboard.
PPP-C-843 - Cushioning, Material, Cellulosic.

PAGE 2

Before Section 3., add the following:

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposal shall apply.

Code of Federal Regulations:

Title 10, Atomic Energy, Chapter 1 Atomic Energy Commission (10 CFR20-170).

Part 30 - Rules of General Applicability to Licensing of Byproduct Material.

Part 32 - Specific Licenses to Manufacture, Distribute, or Import Exempted and General Licensed Items Containing Byproduct Material.

(Application for copies should be addressed to the Superintendent of Documents, U.S. Government Printing Office, Washington, D. C. 20402.)

National Motor Freight Traffic Association, Incorporated, Agent:

National Motor Freight Classification.

(Application for copies should be addressed to the National Motor Freight Traffic Association, Inc., Agent, 1616 P Street, NW., Washington, D. C. 20036.)

Uniform Classification Committee, Agent:

Uniform Freight Classification.

(Application for copies should be addressed to the Uniform Classification Committee, Tariff Publishing Officer, Room 202 Union Station, 516 W. Jackson Blvd., Chicago, Illinois 60606.)

Paragraph 3.6, delete the last sentence.

Add new subparagraph as follows:

3.6.1 Luminous hands and numerals. If luminous hands and numerals are required, it shall be so specified in the invitation for bids. The luminous material used on the hands and dial shall contain tritium (H^3), applied in accordance with requirements and regulations as specified in 10 CFR 30.15 and 10 CFR 32.14."

Paragraph 4.1, line 4, after "Government," insert the following:

"The contractor shall provide valid information to certify compliance with the AEC requirements."

PAGE 3

Subparagraph 4.2.1, line 2, after "4.0" insert," expressed as percent defective."

Subparagraph 4.2.2, line 2, after "2.5" insert," expressed as percent defective."

After 4.2.2, add new subparagraph as follows:

"4.2.3 Visual examination of luminous material. Sampling for examination of luminous material shall be in accordance with MIL-STD-105, Inspection Level II, AQL 1.0 expressed as percent defective. Cracking, chipping, flaking, or bubbling of luminous material applied on hands and dial shall be considered a defect."

Paragraph 4.4, line 2, after "in." delete remaining sentence and substitute the following:

"section 3 (except 3.6.1) of this specification."

PAGE 4

Prior to section 5, add new paragraph as follows:

"4.6 Inspection of preparation for delivery. An inspection shall be made to determine that the packaging, packing, and marking comply with the requirements in section 5 of this specification. Defects shall be scored in accordance with table II. For examination of interior packaging the sample unit shall be one shipping container fully prepared for delivery, selected at random just prior to the closing operations. Sampling shall be in accordance with MIL-STD-105. Defects of closure listed shall be examined on shipping containers fully prepared for delivery. The lot size shall be the number of shipping containers in the end item inspection lot. The inspection level shall be S-2 with an AQL of 4.0 defects per hundred units."

Classification of Preparation for Delivery Defects

Examine	Defects
Markings (exterior and interior)	Omitted; incorrect; illegible; improper size, location, sequence, or method of application.
Materials	Any component missing or damaged.
Workmanship	Inadequate application of components such as incomplete closure of container flaps, loose strapping, inadequate stapling, or distortion of container.
Contents (exterior container)	Number per container is more or less than required. Net weight exceeds box specification requirements.

Paragraph 5.1, delete in its entirety and substitute:

5.1 Packaging. Packaging shall be level A, B or C as specified (see 6.1(e).)

5.1.1 Level A. The level A packaging shall conform to the group 4 packaging requirements of PPP-T-360.

5.1.2 Level B. The clocks shall be individually wrapped in cellulosic cushioning material conforming to PPP-C-843 or suitably blocked and braced utilizing paperboard, fiberboard or molded plastic inserts, and packaged in close fitting boxes conforming to PPP-B-566, PPP-B-676 or PPP-B-636. The boxes shall be closed in accordance with the appendix to the applicable box specification.

5.1.3 Level C. Unless otherwise specified, clocks shall be packaged in accordance with the manufacturer's standard practice, providing it insures protection for the clock during shipment and safe delivery to its destination.

5.2 Packing. Packing shall be level A, B or C as specified (see 6.1(e).)

5.2.1 Level A. The level A packing shall conform to the group 4 packing requirements of PPP-T-360.

5.2.2 Level B. Twenty-four clocks packaged as specified in 5.1.2 shall be packed in a close-fitting box conforming to PPP-B-636, class-domestic. Closure of boxes shall be in accordance with the appendix to the box specification.

5.2.3 Level C. Clocks packaged as specified in 5.1.3 shall be packed in containers that will assure carrier acceptance and safe arrival at destination in compliance with the National Motor Freight Classification or the Uniform Freight Classification.

5.3 Marking. Marking shall be in accordance with 5.3.1 or 5.3.2, as specified (see 6.1(e).)

5.3.1 Civil agencies. In addition to any special marking required by the contract or order, the unit and shipping containers shall be marked in accordance with Fed. Std. No. 123.

5.3.2 Military agencies. In addition to any special marking required by the contract or order, the unit and shipping containers shall be marked in accordance with MIL-STD-129.

Paragraph 6.1(c), delete "(see 3.6)" and substitute "(see 3.6.1.)"

Paragraph 6.1(e), delete in its entirety and substitute: "Selection of applicable levels of packaging, packing and marking."
