INTERIM COMMERCIAL ITEM DESCRIPTION

GLOBULIN, IMMUNE FOR INJECTION, HUMAN, DRIED

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

Salient Characteristics:

Shall be a sterile, dried Globulin, Immune (Human) for injection (intravenous).

Materials used in the manufacture of the product shall be of a pharmaceutical grade.

Shall contain 50 mg of protein per ml when reconstituted with the appropriate volume of diluent.

When assayed, at least 90 percent of the protein shall be gamma globulin.

Samples of the final, filled immediate containers shall be submitted as follows:

The quality assurance representative, when inspection is at source, or the contractor, when inspection is at destination, shall send the following by the fastest route directly to:

Department of Biologics Research
Division of Communicable Disease and Immunology
Walter Reed Army Institute of Research, Bldg 40
ATTN: Mr. Calvin Powell, Room 2022
Washington, DC 20307-5100

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The unrefrigerated shipping time for this item shall be not more than 6 days (144 hours).

NOTE: The following National Stock Number is covered by this document:

NSN	ITEM IDENTIFICATION
6505-01-249-4482	GLOBULIN, IMMUNE FOR INJECTION, Human, Dried, 5 Gram
