COMMERCIAL ITEM DESCRIPTION

INDICATOR, STERILIZATION

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers one type of steam sterilization indicator.

Salient characteristics:

The steam sterilization indicator shall be a single use item capable of demonstrating graphically that parameters of time, temperature and saturated steam have been accomplished during steam sterilization cycles.

Results shall be readily apparent with no further processing, such as incubation after completion of the sterilization cycle.

Interpretation of results shall be determined by length rather than color of an indicator strip with a clear "reject" or "accept" indication.

Required time at temperature shall range from 21.0 minutes at 245°F to 1.4 minutes at 275°F inside a saturated steam sterilizer. The indicator shall not react within the normal range of steam sterilization temperature (i.e. 240°F - 270°F) in the absence of steam.

Workmanship. The indicator shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package of 1000 indicators, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
