MILITARY SPECIFICATION

TRAINING AID, GRIDS, LARGE AND SMALL, MAP READING

This specification is approved for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers two types of map reading training aid grids.

1.2 Classification. Grids covered by this specification shall be of the following types, as specified (see 6.2):

Type I - Large, two section, folding.
Type II - Small, nonfolding.

2. APPLICABLE DOCUMENTS

2.1 Issues of documents. The following documents of the issue in effect on date of invitation for bids or request for proposal form a part of this specification to the extent specified herein.

SPECIFICATIONS

FEDERAL

QQ-S-781	- Strapping, Steel, and Seals.
PPP-B-601	- Boxes, Wood, Cleated-Plywood.
PPP-B-636	- Boxes, Shipping, Fiberboard.
PPP-F-320	- Fiberboard; Corrugated and Solid, Sheet Stock (Container Grade), and Cut Shapes.

STANDARDS

MILITARY

MIL-STD-105	- Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129	- Marking for Shipment and Storage.
MIL-STD-1188	- Commercial Packaging of Supplies and Equipiment.

DRAWINGS

ME

D13211E7427	- Training Aid, Grid, Large.
C13211E7429	- Training Aid, Grid, Small.

(Copies of specifications, standards, and drawings required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 Description. Grids shall be as shown on the applicable drawings and as specified herein.

3.1.1 Drawings. The drawings forming a part of this specification are end product drawings. No deviation from the prescribed dimensions or tolerances is permissible without prior approval of the contracting officer. Where tolerances could cumulatively result in incorrect fits, the contractor shall provide tolerances within those prescribed on the drawings to insure correct fit, assembly, and operation of the grids. Any data (e.g., shop drawings, layouts, flow sheets, processing procedures, etc.) prepared by the contractor or obtained from a vendor to support fabrication and manufacture of the production item shall be made available, upon request, for inspection by the contracting officer or his designated representative.

3.2 Material. Material shall be as specified herein and on the applicable drawings. Materials not specified shall be selected by the contractor and shall be subject to all provisions of this specification (see 6.3).

3.3 Type I grid, large. The Type I grid shall conform to Drawing D13211E7427.

Check the source to verify that this is the current version before use.

3.4 Type II grid, small. The Type II grid shall conform to Drawing C13211E7429.

3.5 Workmanship. The grids shall be clean of all slag, flux, weld spatter, or other impurities detrimental to the appearance of the grids. Paint shall be smooth and continuous without blisters or unpainted spots.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Material inspection. The contractor is responsible for insuring that materials used are manufactured, examined, and tested in accordance with referenced specifications and standards, as applicable.

4.2 Classification of inspections. The inspection requirements specified herein are classified as follows:

(a) Quality conformance inspection (see 4.3).
(b) Inspection of packaging (see 4.5).

4.3 Quality conformance inspection.

4.3.1 Sampling. Sampling for examination shall be in accordance with MIL-STD-105.

4.3.2 Examination. Samples selected in accordance with 4.3.1 shall be examined for the defects specified in 4.4.1. AQL shall be 2.5 percent defective.

4.4 Inspection procedure.

4.4.1 Examination. The grids shall be examined as specified herein for the following defects:

Source: https://assist.dla.mil -- Downloaded: 2026-10-22T21:18Z
Check the source to verify that this is the current version before use.

101. Materials not as specified.
102. Dimensions not as specified.
103. Components not assembled as specified, or missing.
104. Treatment and painting not as specified.
105. Brazed or welded joints missed or fractured.
106. Workmanship not as specified.

4.5 Inspection of packaging.

4.5.1 Quality conformance inspection of pack.

4.5.1.1 Unit of product. For the purpose of inspection, a completed pack prepared for shipment shall be considered a unit of product.

4.5.1.2 Sampling. Sampling for examination shall be in accordance with MIL-STD-105.

4.5.1.3 Examination. Samples selected in accordance with 4.5.1.2 shall be examined for the following defects. AQL shall be 2.5 percent defective.

107. Materials or containers not as specified for Level A or Level B. Each incorrect material or container shall constitute one defect.
108. Quantities preserved together exceed the weight limitation of the box specification for Level A.
109. Grids preserved together not separated by pads as specified for Level A.
110. Strapping not as specified for Level A.
111. Gross weight exceeds the limitation of the box specification for Level B.
112. Boxes not reinforced with tape as specified for Level B.
113. Marking missing, illegible, incorrect, or incomplete.

5. PACKAGING

5.1 Preservation. Preservation shall be Level A or Commercial as specified (see 6.2).

5.1.1 Level A. Each grid, with the Type I grid in the folded position, shall be preserved in a box conforming to PPP-B-636, W6c; or, when specified (see 6.2), grids of like description shall be preserved together in a box conforming to PPP-B-636, W6c or W5c, in quantities not to exceed the weight limitation of the box specification. Grids preserved together shall be separated from each other by pads of fiberboard conforming to PPP-F-320, Type CF, Class Weather Resistant, Variety SW, Grade W6c.

Check the source to verify that this is the current version before use.

5.1.2 Commercial. Grids shall be preserved in accordance with MIL-STD-1188.

5.2 Packing. Packing shall be Level A, Level B or Commercial as specified (see 6.2).

5.2.1 Level A. Preserved grids of like description shall be packed in a close-fitting box conforming to PPP-B-601, Overseas Type, Grade B, style optional. Strapping shall conform to QQ-S-781, Class 1, Type I or IV, size as applicable; and, unless otherwise specified by the ordering activity, strapping shall be Finish B. When specified by the ordering activity (see 6.2), strapping shall be Finish A.

5.2.2 Level B. Preserved grids of like description shall be packed together in close-fitting boxes conforming to PPP-B-636, V3c or V3s, style optional. The gross weight shall not exceed the weight limitation of the box specification and the boxes shall be reinforced with bands of reinforced tape in accordance with the appendix to the box specification.

5.2.3 Commercial. Grids preserved as specified in 5.1 shall be packed in accordance with MIL-STD-1188.

5.3 Marking.

5.3.1 Military packaging. Marking shall be in accordance with MIL-STD-129.

5.3.2 Commercial packaging. Marking shall be in accordance with MIL-STD-1188.

6. NOTES

6.1 Intended use. The grids are components of a map reading set and are used to represent grid reference lines. The set is intended for use as an aid in teaching basic map reading.

6.2 Ordering data. Procurement documents should specify the following:

(a) Title, number and date of this specification.
(b) Type grid required (see 1.2).
(c) Degree of preservation and degree of packing required (see 5.1 and 5.2).
(d) When grids of like description shall be packaged together (see 5.1.1).
(e) When strapping shall be Finish A (see 5.2.1).

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

INSTRUCTIONS: This form is provided to solicit beneficial comments which may improve this document and enhance its use. DoD contractors, government activities, manufacturers, vendors, or other prospective users of the document are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity. A response will be provided to the submitter, when name and address is provided, within 30 days indicating that the 1426 was received and when any appropriate action on it will be completed.

NOTE: This form shall not be used to submit requests for waivers, deviations or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
