MILITARY SPECIFICATION

TRAINING AID, MAP ASSEMBLY,

FOLDING PANEL

This specification is approved for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers a map assembly consisting of a folding panel with braces and three printed and one plain roller shade.

2. APPLICABLE DOCUMENTS

2.1 Issues of documents. The following documents of the issue in effect on date of invitation for bids or request for proposal form a part of this specification to the extent specified herein.

SPECIFICATIONS

FEDERAL

QQ-S-781	- Strapping, Steel, and Seals.
PPP-B-601	- Boxes, Wood, Cleated-Plywood.
PPP-B-636	- Boxes, Shipping, Fiberboard.
PPP-B-640	- Boxes, Fiberboard, Corrugated, Triple-Wall.

STANDARDS

MILITARY

MIL-STD-105	- Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129	- Marking for Shipment and Storage.
MIL-STD-1188	- Commercial Packaging of Supplies and Equipment.

DRAWINGS

ME

TA13211E7466	- Training Aid, Map Assembly, Folding Panel.

(Copies of specifications, standards, and drawings required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 Description. The map assembly shall be in accordance with TA13211E7466 and as specified herein.

3.1.1 Drawings. The drawings forming a part of this specification are end product drawings. No deviation from the prescribed dimensions or tolerances is permissible without prior approval of the contracting officer. Where tolerances could cumulatively result in incorrect fits, the contractor shall provide tolerances within those prescribed on the drawings to insure correct fit, assembly, and operation of the map assembly. Any data (e.g., shop drawings, layouts, flow sheets, processing procedures, etc.) prepared by the contractor or obtained from a vendor to support fabrication and manufacture of the production item shall be made available, upon request, for inspection by the contracting officer or his designated representative.

3.2 Material. Material shall be as specified herein and on the applicable drawings. Materials not specified shall be selected by the contractor and shall be subject to all provisions of this specification (see 6.3).

3.3 Workmanship. Components fabricated of wood shall be free of sharp or splintered edges. Metal components shall be free of sharp edges and burrs.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Material inspection. The contractor is responsible for insuring that materials used are manufactured, examined, and tested in accordance with referenced specifications and standards, as applicable.

4.2 Classification of inspections. The inspection requirements specified herein are classified as follows:

(a) Quality conformance inspection (see 4.3).
(b) Inspection of packaging (see 4.5).

4.3 Quality conformance inspection.

4.3.1 Sampling. Sampling for examination shall be in accordance with MIL-STD-105.

4.3.2 Examination. Samples selected in accordance with 4.3.1 shall be examined for the defects specified in 4.4.1. AQL shall be 2.5 percent defective.

4.4 Inspection procedure.

4.4.1 Examination. The map assembly shall be examined as specified herein for the following defects:

101. Materials not as specified.
102. Dimensions not as specified.
103. Components missing or not properly assembled.
104. Marking missing, incomplete, or illegible.
105. Treatment and painting not as specified.
106. Joints missed, fractured, or not welded as specified.
107. Workmanship not as specified.

Check the source to verify that this is the current version before use.

4.5 Inspection of packaging.

4.5.1 Unit of product. For the purpose of inspection, a completed pack prepared for shipment shall be considered a unit of product.

4.5.2 Sampling. Sampling for examination shall be in accordance with MIL-STD-105.

4.5.3 Examination. Samples selected in accordance with 4.5.2 shall be examined for the following defects. AQL shall be 2.5 percent defective.

108.	Materials or containers not as specified for Level A or Level B. Each incorrect material or container shall be considered one defect.
109.	Braces furnished with the map assembly not secured to the back of the assembly as specified for Level A or Commercial.
110.	Assembly not immobilized within the box as specified for Level A.
111.	Box not closed and sealed as specified for Level A.
112.	Strapping not as specified for Level A.
113.	Boxes not reinforced with bands of tape as specified for Level B.
114.	Marking missing, illegible, incorrect, or incomplete.

5. PACKAGING

5.1 Preservation. Preservation shall be Level A or Commercial as specified (see 6.2).

5.1.1 Level A. Each folded map assembly, with the braces secured to the back of the assembly as provided for, shall be preserved in a box conforming to PPP-B-636, W5c. The assembly shall be immobilized within the box by the use of fiberboard pads fabricated from the same material as the box in a manner to prevent movement or damage. The dimension and weight limitations shall be waived. The box shall be closed and sealed as specified for Method V in the appendix to the box specification. Braces procured separately from the map assembly shall be preserved as specified herein for the map assembly.

5.1.2 Commercial. Map assemblies, with braces secured, shall be preserved in accordance with MIL-STD-1188.

Check the source to verify that this is the current version before use.

5.2 Packing. Packing shall be Level A, Level B or Commercial as specified (see 6.2).

5.2.1 Level A. Each map assembly preserved as specified in 5.1 shall be packed in a close-fitting box conforming to PPP-B-601, Overseas Type, Grade B, style optional. Braces procured separately from the map assembly shall be packed in boxes as specified herein. The boxes shall be closed and strapped in accordance with the appendix to the applicable box specification except that strapping shall conform to QQ-S-781, Class 1, Type I or IV, size as applicable; and unless otherwise specified herein, strapping shall be Finish B. When specified (see 6.2), strapping shall be Finish A.

5.2.2 Level B. Each map assembly preserved as specified in 5.1 shall be packed in a close-fitting box conforming to PPP-B-640, Class 2, style optional. Braces procured separately from the map assembly shall be packed in a close-fitting box conforming to PPP-B-636, V3c. The boxes shall be reinforced with bands of reinforced filament tape applied in accordance with the appendix to the box specification.

5.2.3 Commercial. Map assemblies, preserved as specified in 5.1 shall be packed in accordance with MIL-STD-1188.

5.3 Marking.

5.3.1 Military packaging. Marking shall be in accordance with MIL-STD-129.

5.3.2 Commercial packaging. Marking shall be in accordance with MIL-STD-1188.

6. NOTES

6.1 Intended use. The map assembly is a component of a map reading set and is used to represent characteristics of mapped areas. The set is used as an aid in teaching basic map reading.

6.2 Ordering data. Procurement documents should specify the following:

(a) Title, number, and date of this specification.
(b) Degree of preservation and degree of packing required (see 5.1 and 5.2).
(c) When strapping shall be Finish A (see 5.2.1).

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

INSTRUCTIONS: This form is provided to solicit beneficial comments which may improve this document and enhance its use. DoD contractors, government activities, manufacturers, vendors, or other prospective users of the document are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity. A response will be provided to the submitter, when name and address is provided, within 30 days indicating that the 1426 was received and when any appropriate action on it will be completed.

NOTE: This form shall not be used to submit requests for waivers, deviations or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
