# COMMERCIAL ITEM DESCRIPTION

## LENS, GOGGLES, INDUSTRIAL

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers industrial goggle lenses for protection of the eyes of the wearer from flying objects, and when fitted with proper goggles, to protect the eyes of the wearer from glare, injurious radiations, and impact.

Salient characteristics:

Lenses shall be of the following type, as specified:

Type I - Filter Shade No. 4.
Type II - Filter Shade No. 6.
Type III - Clear
Type IV - Cover.

Types I, II, and III shall be single solid glass plate of a grade suitable for optical use. They shall measure 1.968 ± 0.008 inch in diameter and between 0.12 - 0.15 inch in thickness. Lenses shall be in the shade specified.

Type IV shall be single solid glass plate or allyl plastic. They shall measure 1.968 ± 0.008 inch in diameter and shall not be less than 0.050 inch in thickness.

Finish. Lenses shall be well polished, smooth and free from rough edges or any irregularities which may present a potential hazard through cutting or scratching the wearer.

Conformance. Lenses shall comply with the eye protection requirements of ANSI Z87.1.

Workmanship. Lenses shall be free from any defect which may affect appearance, durability or serviceability.

The issue of ANSI standards in effect on the date of the solicitation shall be used to determine compliance with these requirements.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The items shall be packaged in accordance with normal commercial practice and packed to assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.

ANSI standards are available from the American National Standards Institute, Inc., 1430 Broadway, New York, NY 10018.
