COMMERCIAL ITEM DESCRIPTION

HOLDER AND CUTTER, WRAPPING PAPER

The General Services Administration has authorized the use of this commercial item description (CID), for all Federal agencies.

1. SCOPE

1.1 Scope. This commercial item description covers a countertop paper holder and cutter for 9-inch diameter rolls of wrapping paper.

2. CLASSIFICATION

2.1 Classification. The holder and cutter shall be of the following sizes as specified (see 7.1).

Size A - 24 inches (61 cm)
Size B - 36 inches (91 cm)

3. SALIENT CHARACTERISTICS

3.1 Holder and cutter. The holder and cutter shall have the following characteristics:

A. The holder and cutter shall be designed for countertop use.
B. The holder and cutter shall consist essentially of one cutter, two end standards, one top board or tap bar (or a one-piece frame which performs the same function as two end standards and the top board or tap bar), one paper-holding roller, and a safety devise to hold the cutter blade open when paper is being loaded. All metal parts shall be corrosion resistant or shall have a corrosion resistant finish.
C. The cutter shall be of suitable metal and sharp enough to assure clean tearing of wrapping paper.
D. The end standards shall be metal and shall have means for fastening the holder and cutter to the counter. The top board or bar, if a separate piece, may be wood or metal.
E. The paper-holding roller shall be wood or metal and shall be capable of supporting its capacity size roll of wrapping paper without deformation both at rest and during dispensing and cutting.
F. Springs shall maintain tension of the cutter blade on the paper roll at all times.

3.2 Workmanship. The finished holder and cutter shall be free from any defects which may affect appearance, function, or serviceability.

3.3 Measurement system. The values stated in inch-pound units are to be regarded as the standard. The metric values stated in parenthesis are for information purposes only.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Engineering Group (7FXEE), 819 Taylor Street, Fort Worth, TX 76102-6114.

Check the source to verify that this is the current version before use.

3.4 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

4. REGULATORY REQUIREMENTS

4.1 Regulatory requirements. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

5. QUALITY ASSURANCE PROVISIONS

5.1 Product conformance. The products provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, specifications, standards, and quality assurance practices and be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance.

6. PACKAGING

6.1 Packaging. Preservation, packing, and marking shall be as specified in the contract or purchase order.

7. NOTES

7.1 Ordering data. Purchaser should select the preferred options permitted herein and include the following information in procurement documents (if applicable).

a) Title, number, and date of this commercial item description.
b) Size (See 2.1).
c) The preservation, packing, and marking desired.

7.2 National stock numbers (NSNs). The following NSNs correspond to this CID. The list may not be indicative of all possible NSNs associated with the CID.
