COMMERCIAL ITEM DESCRIPTION

PENS, LETTERING, SCRIBER-TEMPLATE: RESERVOIR

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification GG-P-140.

This description covers pens intended for use with template, guides, or on a scriber to produce engineering drawings, technical illustrations, artwork, and lettering.

Salient characteristics:

Design: This description covers two types of reservoir pens of specified sizes.

Classification: The pens shall be of the following types and sizes and shall be furnished either singly or in sets, and shall be similar to figure 1:

Type I - English

Sizes

000	2	6
00	3	7
0	4	8
1	5	

Type II - Metric

Sizes

.18	.70
.25	1.00
.35	1.40
.50	2.00

AMSC N/A FSC 6675

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Description. The pens shall consist of a holder, refillable ink reservoir, body assembly, point or nib, and a cap. The overall length of the pens shall be between 4 and 7 inches. The diameter of the holder shall be between 5/16 inch and 1/2 inch.

Holder and cap. The holder and cap shall be of plastic or corrosion-resistant metal at the option of the contractor.

Ink reservoir. The ink reservoir shall be plastic and shall be refillable.

Points. Type I points, sizes 000 through 6, and type II points, sizes .18 through 1.40 shall be of corrosion-resistant steel or, when specified, points shall have a jewel tip. Larger points may be made from plastic of proven durability.

Marking. Each pen shall be permanently marked with the size designation.

Literature. Each pen (or set of pens if specified) shall include the manufacturer's standard operating instructions and parts list.

Regulatory requirements. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Packaging and Marking. Military packaging shall be specified when shipments are to overseas Department of Defense (DoD) consignees. Commercial packaging may be specified for shipments to DoD consignees within the Continental United States and to non-DoD consignees worldwide. When a suppliers normal packaging will satisfy the requirements for military packaging, it may be used.

Military Packaging. Each pen shall be preserved and packed to protect against physical damage and deterioration in a logistic environment characterized by the following:

1. Multiple handling during transportation and in-transit storage.
2. Shock, vibration, and static loading forces during worldwide shipment.
3. Uncontrolled warehouse storage for extended periods.
4. Weather exposure during shipment and in-transit transfers.
5. Stacking loads during shipment and storage.

Quantities of pens of like description destined to a single addressee may be utilized into one or more unit loads.

Commercial. Each pen shall be packaged in accordance with the supplier's normal method for retail distribution. Individually packaged pens (or sets of pens if specifiecd) of like description shipped to a single destination may be unitized to permit handling as a single unit. Shipping containers shall comply with Uniform Freight Classification or National Motor Freight Classification rules.

Marking. Unit, intermediate (when provided), and exterior packs shall be marked with the item nomenclature, stock or part number, quantity per pack, and contract number as a minimum; additional marking shall be as specified in the contract or

Check the source to verify that this is the current version before use.

order. Exterior packs shall have in addition the complete consignee's address. Markings shall be applied in a legible manner, in a contrasting color, of an appropriate size, and of waterproof materials.

Quality assurance. The pens or sets of pens shall be examined for the following defects. Presence of one or more defects shall be cause for rejection.

1. Type not as specified.
2. Size not as specified.
3. Set of pens types or sizes not as specified.
4. Description, holder and cap, or reservoir not as specified.
5. Points not as specified.
6. Packaging and marking not as specified.

Certification of commercial item. The contractor shall certify that the product offered to the Government meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product as the manufacturer's current product offered by the contractor in the commercial marketplace for at least one year preceding the solicitation. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Small business. A small business that cannot meet the certification-of-commercial-item requirement of this document, may make an offer under this solicitation; and, if such small business is the apparent successful offeror, the Government may require the small business to submit a sample pen or set of pens. Any such reservoir pens may be evaluated for this solicitation if time to contract award permits. Such evaluation would be to determine conformance to all requirements of this commercial item description and to determine equivalency to lettering pens, reservoir available in the commercial marketplace in the areas of durability, human factors engineering, and safety. It should be noted that samples are not required unless specifically requested by the contracting officer. Note. The Government may elect not to evaluate a sample from an apparent low bidder for award for this solicitation if a determination of urgency is made by the contracting officer. The sample would then be evaluated prior to future solicitation for comparable items.

Check the source to verify that this is the current version before use.

Notes:

1. Ordering activity shall specify:

   a. Type and size of single pens, or type of set and pen sizes required.
   b. When points shall have a jewel tip.

2. When this commercial item description is used for procurement, the commercial item certification clause must appear in the solicitation.
3. Figure. The figure shows the basic design for a reservoir lettering pen which has been found acceptable; however, the figure is for illustration only and is not intended to preclude the furnishing of other designs which comform to the salient characteristics.
