COMMERCIAL ITEM DESCRIPTION

CALCULATING MACHINE, HAND-HELD (PROGRAMMABLE)

The General Services Administration has authorized the use of this Commercial Item Description (CID) for all federal agencies.

1. SCOPE.

1.1 Abstract. This CID covers a hand-held programmable calculator with carrying case and other accessories.

2. SALIENT CHARACTERISTICS.

2.1 Description. The calculating machine shall be a programmable, hand-held type with an easy reading display. The calculator shall be powered by a power pack or replaceable battery, and be furnished with a recharger AC adapter, carrying case, owner's handbook, and programming guide. Optional accessories (see 2.4) include a printer and software package.

2.2 Calculator characteristics.

2.2.1 Weight and dimensions. The calculating machine shall not weigh more than 20.00 oz and shall have maximum dimensions of 8.00 inches by 3.50 inches.

2.2.2 Display. The calculating machine shall display English characters not less than 0.12 inches in height and shall display a minimum of 12 digits including decimal point and sign (+/-)

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: U.S. Army Topographic Engineering Center, ATTN: CETEC-TD-T, 7701 Telegraph Road, Alexandria, VA 22315-3864 by using the Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

AMSC N/A FSC 7420

Distribution Statement A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

2.2.3 Power source. The calculating machine shall utilize replaceable or rechargeable batteries or power pack. The calculating machine shall be capable of operating from an externally supplied 115V, 60 Hz source and perform all specified functions while recharging. The recharger AC adapter shall have a power cord that is a minimum of 6.00 feet in length and meet the UL certification or equivalent.

2.2.4. Carrying case. The carrying case shall provide protection from scratches and spills.

2.3 Operating capabilities and functions. The calculating machine shall perform, as a minimum, the following operations:

a. Floating and fixed decimal.
b. Scientific notation (8-digit mantissa, 2-digit exponent).
c. Basic arithmetic functions (+, -, ×, ÷).
d. Algebraic functions (x^2, y^x, π, $\bullet x$, ln x, Log x, 10^x, e^x).
e. Trigonometric functions (sin, cos, tan, and inverses) in degrees, radians, or grads.
f. Hyperbolic functions.
g. Mean and standard deviation.
h. Linear regression.
i. Degrees/radians/grads and conversions.
j. Factorial function.
k. 60 data memories, direct and indirect.

2.4 Accessories.

2.4.1 Required accessories. The calculating machine shall be provided with the following accessories:

a. Recharger AC adapter.
b. Carrying case.
c. Owner's handbook.
d. Programming guide.

2.4.2 Optional accessories. The calculating machine shall be provided with the following optional accessories when specified (see 6.2):

a. Printer.
b. Software package.

3. REGULATORY REQUIREMENTS.

3.1 Recycled, recovered, or environmentally preferable materials. Recycled, recovered, or environmentally preferable materials should be used to the maximum extent possible provided that

the material meets or exceeds the operational and maintenance requirements, and promotes economically advantageous life cycle costs.

4. QUALITY ASSURANCE PROVISIONS.

4.1 Market acceptability. The calculating machine offered shall be the latest model of the standard product of the supplier, which has been used in the field for at least one year by commercial organizations.

4.2 Product conformance. The calculating machine provided shall meet the salient characteristics of this CID, and conform to the manufacturer's own drawings, specifications, standards, and quality assurance practices, and be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance.

4.3 Examination. Each calculating machine shall be examined for compliance with the requirements specified in Section 2. Any modification necessary following failure to meet the specified requirements shall receive particular attention for adequacy and suitability. This element of inspection shall encompass all examinations of performance and dimensional requirements. Failure to comply with any specified requirement, or the presence of one or more defects, shall constitute cause for rejection.

5. PACKAGING.

5.1 Packaging. Preservation, packing, and marking shall be as specified in the contract or order.

6. NOTES.

6.1 Intended use. The calculator is intended for use in general and scientific computations.

6.2 Ordering data.

a. Title, number, and date of this document.
b. When a printer is required (see 2.4.2).
c. When a software package is required (see 2.4.2).
d. Packaging required.

6.3 Data requirements. The contracting officer shall include, in the contract or order, any data requirements, such as maintenance and operation manuals, instructional materials, and technical publications to be furnished with each calculating machine.

6.4 Provisioning. The contracting officer shall include, in the contract or order, provisioning requirements, maintenance tools (including any special tools), as necessary; and instructions regarding shipment of the calculating machines.

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

INSTRUCTIONS

1. The preparing activity must complete blocks 1, 2, 3, and 8. In block 1, both the document number and revision letter must be given.
2. The submitter of this form must complete blocks 4, 5, 6, and 7.
3. The preparing activity must provide a reply within 30 days from receipt of the form.

NOTE: This form may not be used to request copies of documents, nor to request waivers, or clarification of requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.

I RECOMMEND A CHANGE:	1. DOCUMENT NUMBER A-A-50225A	2. DOCUMENT DATE (YYMMDD)

3. DOCUMENT TITLE
CALCULATING MACHINE, HAND-HELD (PROGRAMMABLE)

4. NATURE OF CHANGE *(Identify paragraph number and include proposed rewrite, if possible. Attach extra sheets as needed)*

5. REASON FOR RECOMMENDATION

6. SUBMITTER

a. NAME (Last, First, Middle Initial)	b. ORGANIZATION	
c. ADDRESS (Include Zip Code)	d. TELEPHONE (Include Area Code) (1) Commercial (2) DSN (If applicable)	7. DATE SUBMITTED (YYMMDD)

8. PREPARING ACTIVITY

a. NAME TOPOGRAPHIC ENGINEERING CENTER	b. TELEPHONE (Including Area Code) (1) Commercial (703)428-6862 (2) DSN 328-6862
c. ADDRESS (Include Zip Code) TOPOGRAPHIC ENGINEERING CENTER ATTN: CETEC-TD-T 7701 TELEGRAPH ROAD ALEXANDRIA, VA 22315-3864	IF YOU DO NOT RECEIVE A REPLY WITHIN 45 DAYS, CONTACT: Defense Quality and Standardization Office 5203 Leesburg Pike, Suite 1403, Falls Church, VA 22041-3466 Telephone (703) 756-2340 AUTOVON 289-2340
