MILITARY SPECIFICATION

FENDERS, MARINE, RUBBER-FILLED

This amendment forms a part of Military Specification MIL-F-11435A, 18 March 1954, and has been approved by the Department of Defense for use of the Departments of the Army, the Navy, and the Air Force.

Page 1, paragraph 1.2, lines 7, 8, 9 and the sizes of fenders listed: Delete and substitute: "Size of the fender is defined as being the diameter and length of the canvas cover, rubber filled tube, prior to the installation of the outer rope cover. The fenders shall be made in the following sizes:

Diameter (Inches)		*Length (Inches)*
4	by	18
5	by	22
9	by	30"

Page 2, table I, Fender size: Delete "7 by 24" and substitute "5 by 22."

Page 3, Paragraph 4.2.1: Delete and substitute:

"4.2.1 *Sampling for inspection.*—A random sample of fenders shall be selected in accordance with Table II, from each inspection lot of fenders offered for Government inspection of visual and dimensional characteristics with lot acceptance based on sampling inspection requirements in accordance with Standard MIL–STD–105. At the option of the Government inspector, the equivalent double or sequential sampling plan from Standard MIL–STD–105 may be used.

Table II.

Lot size	Sample size	Major defects acceptance no. (defectives)	Minor defects acceptance no. (defectives)
1 — 40	7	0	0
41 — 65	10	0	1
66 — 110	15	1	2
111 — 180	25	1	3
181 — 300	35	2	5
301 — 500	50	3	6
501 — 800	75	4	9
801 — 1300	110	6	12"

Page 3, Table II: Delete table heading roman numeral "II," and substitute roman numeral "III."

Page 3, paragraph 4.3.1, line 4: Delete "table II" and substitute "table III."

Page 3, Table III, under column for minor defects; change word "dia." in second line to "length."
