COMMERCIAL ITEM DESCRIPTION

ALUMINUM HYDROXIDE GEL, MODIFIED

The General Services Administration has authorized the use of this Commercial Item Description.

Salient characteristics:

Shall be flavored, palatable Aluminum Hydroxide Gel, Modified (Suspension) 600 mg per 5 ml.

Shall be a suspension containing 540 to 690 mg of Aluminum Hydroxide (equivalent to Dried Gel, USP) per 5 ml of suspension when assays using a suitable, accurate and reproducible method.

Shall contain 270 to 330 mg of Aluminum Oxide per 5 ml of suspension when assayed using a suitable, accurate reproducible method.

Each 100 gm of the suspension shall contain the equivalent of not less than 4.8 grams and not more than 5.95 grams of Aluminum Oxide in the form of Aluminum Hydroxide and Hydrate Oxide when assayed using the USP method or equivalent, suitable, accurate and reproducible method.

Each 5 ml of suspension shall have an acid neutralizing capacity of not less than 13.5 mEq and shall result in a pH of 3.5 or greater at the end of the initial 10 minute period when tested using the OTC Acid Neutralizing Capacity Test.

pH of the suspension shall be between 5.5 and 8.2 when determined Potentiometrically.

Suspension shall contain not more than 100 aerobic microorganisms per milliter when tested using the USP Method (61) or equivalent,, suitable, accurate and reproducible method. Suspension shall meet the requirements for the test for absence of Escherickia Coli under the USP Microbial Limits Tests (61).

Check the source to verify that this is the current version before use.

Materials used in manufacture of the suspension shall be of a pharmaceutical grade.

Workmanship. The suspension shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). Shall be supplied in a bottle containing 5 fl oz (148 ml). One package containing 12 bottles, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
