COMMERCIAL ITEM DESCRIPTION

MASK, ORONASAL

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers an oronasal mask suitable for the administration of oxygen therapy.

Salient characteristics.

The oronasal mask shall be a disposable adult aerosol mask with an elastic head band. Corrugated tubing is not required to be provided with the mask.

The mask shall be of a universal design to fit a wide variety of facial configurations. The headband shall be capable of being adjusted to fit the individual patient's head size.

The mask shall cover the oronasal area and extend under the chin. The mask shall be fabricated of a clear soft vinyl with smooth feathered edges to minimize irritation. The mask shall have large exhaust parts for patient exhalation. A standard 22/15 mm connector, as specified in ANSI Z79.2, shall be provided for oxygen supply.

Workmanship. The oronasal masks shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing fifty mask oronasal, each individually packaged in such a manner to maintain cleanliness of the item until use, constitutes one unit.

AMSC/NA FSC 6515

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract of purchase order, the contractor may use his own or nay facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspection set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defines as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specification, standard, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Metric Products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
