MILITARY SPECIFICATION SHEET

CHAFF CARTRIDGE (TYPE RR-129/ALE)

This specification is approved for use by the Naval Air Systems Command, Department of the Navy.

The complete requirements for procuring the chaff cartridge described herein shall consist of this document and the latest issue of Specification MIL-C-85003.

1. SCOPE

1.1 Scope. This specification establishes the design, performance, manufacture and acceptance requirements for a chaff countermeasures cartridge designated RR-129/ALE. This cartridge, used with the AN/ALE-29, AN/ALE-37, and AN/ALE-39 dispensing sets, contains aluminum coated glass fiber dipoles used to create false targets for tracking radars.

2. APPLICABLE DOCUMENTS

2.1 General. The following documents, of the issue in effect on date of invitation for bids, form a part of this specification to the extent specified herein.

SPECIFICATIONS

Military

MIL-C-85003	Chaff Cartridge (Type RR-( )/ALE), General Specification for
MIL-R-60346	Roving, Glass, Fibrous

2.1.1 Availability of Documents. When requesting specifications, standards, and publications, refer to both title and number. Copies of this specification and applicable specifications required by contractors in connection with specific procurement functions may by obtained upon application to the Commanding Officer, Publications and Forms Center, CODE 105, 5801 Tabor Avenue, Philadelphia, PA 19120.

3. REQUIREMENTS

3.1 General Requirements. The RR-129/ALE chaff cartridge shall comply with the requirements of MIL-C-85003 and this specification.

3.1.1 Item Definition. The chaff cartridge covered by this specification shall consist of a polyethylene case loaded with aluminum coated glass fiber dipoles.

3.2 Performance Characteristics. Performance characteristics shall conform to the requirements of MIL-C-85003.

3.3 Detail Requirements.

3.3.1 Components.

3.3.1.1 Case Assembly. The chaff cartridge case assembly shall comply with requirements of MIL-D-85003.

3.3.1.2 Dipole Material. The dipole material shall be glass monofilament coated continuously with aluminum.

3.3.1.2.1 Glass Monofilament. The glass monofilament shall be drawn from Type E glass marbles made from a composition similar to that delineated in MIL-R-60346. The maximum diameter of the glass monofilament shall be 0.95 mil.

3.3.1.2.2 Aluminum Coating. The aluminum coating material shall be 99 percent or purer aluminum. The coating thickness shall be a minimum of 0.06 mil, and shall be continuous along the length and around the circumference of the glass monofilament.

3.3.1.2.3 Coating. A slip coating shall be applied to the dipole material in accordance with the requirements of MIL-C-85003.

3.3.1.3 Form Factor. The lengths, weights, and counts of chaff cuts used in the RR-129/ALE chaff cartridge shall be as detailed in Table 1.

3.3.2 Assembly. The chaff cuts shall be positioned within the cartridge case as illustrated in Figure 1. The chaff cuts shall be separated from each other with dividers constructed from 11 point beaming board as detailed in MIL-C-85003. Additional dividers may be placed between the plunger and adjacent chaff cut to provide a tight assembled cartridge. The cumulative length tolerance of all chaff cuts within a cartridge shall not exceed the difference between the length of the cartridge case and the lengths of all non-chaff components within the case.

3.3.3 Item Description. The item description shall be "RR-129/ALE". In addition, the color of the cap (ref. MIL-C-85003) shall be light blue.

4. QUALITY ASSURANCE PROVISIONS

4.1 General. Inspection and testing of the RR-129/ALE chaff cartridge shall be conducted in accordance with the requirements of MIL-C-85003.

5. PREPARATION FOR DELIVERY

5.1 General. The chaff cartridge shall be prepared for delivery in accordance with the requirements of MIL-C-85003.

6. NOTES

6.1 General. The notes contained in MIL-C-85003 shall apply.

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/ vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
