REQUIREMENTS:

The mold shall be used for molding a 90 degree plug having eight number sixteen contacts. For molding procedures see NAVSHIPS drawing 815-1197376, sheet 2.

DESIGN:

Dimensions and configuration: See figures 1 through 9.
Material: As specified in table II.
Surface finish: Surface finish shall be roughness average 63, except as specified herein and shall be in accordance with ANSI B46.1.
Parts list: The parts shown in table II shall be used in the construction of the mold assembly shown herein.

GENERAL INFORMATION:

Military part number is shown in table I.

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE: This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document*(s)* or to amend contractual requirements.
