MILITARY SPECIFICATION

CARTRIDGE, SEMI-FIXED, 105MM, APERS-T, M546, LOADING, ASSEMBLING AND PACKING

This amendment forms a part of Military Specification MIL-C-50252 (MU) dated 1 June 1971.

Title, paragraph 1.1 and paragraph 2.1, Drawings, Army: Delete nomenclature "XM546E2" and "XM380E6" and substitute "M546" and "M380" respectively.

Paragraph 3.4.1.1: Delete the upper requirement of "5.6" seconds and substitute "5.8" seconds.

Paragraph 4.2.4.1, 4.2.4.2 and 4.2.4.3: Delete in their entirety.

Paragraphs 6.3, 6.3.1, 6.3.2, 6.3.3, 6.3.4 and 6.3.5: Delete in their entirety and substitute the following paragraphs:

"6.3 Inspection Equipment Designs. - Inspection equipment designs are of two types - Government Special Inspection Equipment (SIE) designs and contractor designs. SIE designs are designated by drawing numbers on the Equipment Lists referenced on the ET. Design responsibility for all other inspection equipment is assigned to the contractor. The contractor need not furnish any design when a complete Government SIE design is provided. Unless otherwise specified, however, the contractor may submit alternate or modified contractor designs of SIE in accordance with 6.3.2 and 6.3.3 should he elect to do so.

6.3.1 SIE designs. - SIE designs may consist of any of the following:

a. Detailed drawings which completely depict all information necessary for the fabrication and use of the item of inspection equipment.

b. A source control drawing or a specification control drawing as defined in MIL-STD-100.

c. An envelope drawing, as defined in MIL-STD-100, which establishes the criteria which a detail design shall meet. When envelope drawings are specified, the contractor shall prepare designs which comply with the criteria therein.

6.3.2 Contractor designs. - Contractor designs are required for all inspection equipment for which SIE designs arenot specified and may include commercial equipment which the contractor proposes to use. (Commercial equipment is defined as unmodified equipment which is cataloged and available for purchase by the general public.) Contractor designs shall include appropriate operating instructions, calibration procedures and maintenance procedures. Commercial equipment shall be fully described by catalog listings or

other means which provide sufficient information to permit identification and evaluation by the Government and may include illustrations and engineering data. Designs shall be prepared for any special fixture(s) required to be used with commercial equipment, or with SIE designs if not other-wise covered thereby (see 6.3.1a). Designs shall be of the category and form (per MIL-D-1000) specified in the Contract Data Requirements Lists (DD Form 1423).

The contractor is referred to MIL-HDBK-204, "Inspection Equipment Design" for guidance. The specification number and the applicable five-digit defect code number (or other specific identifying information) from Section 4 of this specification shall be referenced on each contractor design together with the component or assembly drawing number and revision letter to which the specific design applies.

6.3.3 Submission of designs for approval.- Contractor designs shall be approved by the Government prior to fabricating or procuring the equipment. Designs shall be submitted for approval in accordance with the stipulations, time frame and distribution specified in the Contract Data Requirements List (DD Form 1423) or in the contract. Partial submission of inspection equipment designs is permissible and encouraged. However, the completion data for design review will be based on the date of the final submission of designs. Picatinny Arsenal design review will normally be accomplished within one month after receipt."

Paragraph 6.6: Delete ATTN codes "SMUPA-ND2 and SMUPA-DC10" and substitute "SARPA-QA-A-A and SARPA-AD-E-C-6".
