MIL-G-53082/2(ME)
14 August 1989

MILITARY SPECIFICATION SHEET

GENERATOR SETS, DIESEL ENGINE DRIVEN

3KW, 60 HERTZ

This specification is approved for use within the USA Belvoir Research, Development and Engineering Center, Department of the Army, and is available for use by all Departments and Agencies of the Department of Defense.

The requirements for acquiring the product described herein shall consist of this specification sheet and the issue of the following specification listed in that issue of the Department of Defense Index of Specifications and Standards (DODISS) specified in the solicitation: MIL-G-53082.

REQUIREMENTS

1. Drawings. This specification covers the detail requirements of the 3kW, Mode III Set, Model MEP-016B. The set shall be in accordance with Top Assembly TA 84-016 and as specified herein.

2. Voltage transient performance. With the set initially operating at rated frequency and load, the instantaneous voltage shall not dip more than 30 percent of rated voltage, and shall reach stable conditions within three seconds. With the set initially operating at rated frequency and voltage and following any sudden change in load from rated load to no load, the instantaneous voltage rise shall not exceed 30 percent of rated voltage and shall reach stable conditions within three seconds.

3. Field current. With the generator temperature stabilized at ambient conditions, the exciter field current for rated voltage shall not exceed 0.38 ampere at no load and 0.90 ampere at rated load.

4. Generator efficiency. The generator, including excitation system, shall have a minimum efficiency of 80 percent at 1.0 pf and 70 percent at 0.8 pf when connected for either single or three phase power.

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE: This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
