INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

PENCIL AND LEAD, ELECTROGRAPHIC

This interim amendment was developed by the General Services Administration, Federal Supply Service, Washington, DC 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification SS-P-155D, dated February 7, 1961, and Amendment-3 dated September 22, 1972.

PAGE 2

Under 2.2, Other publications add the following:

American Society for Testing and Materials (ASTM) Standard:

D 2088 - Determination of Low Concentrations of Lead in Paint.

(Application for copies should be addressed to the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.)

Paragraph 3.1, delete in its entirety.

Paragraph 3.4.2: Delete and substitute:

3.4.2 Casing. The casing of the wood-cased electrographic pencil shall be made of soft, well-seasoned, straight-grained wood, shall not split or splinter and shall be readily cut with a pencil sharpener conforming to type II of Federal Specification GG-S-236 and the wood shall take a smooth, even finish. The wood-casing shall be finished with blue or black lacquer. The lead content (calculated as the metal) of the finish shall not exceed 0.5 percent of the total weight of the contained solids or dried paint film when tested in accordance with American Society for Testing and Materials (ASTM) Standard D 2088.

PAGE 3

Paragraph 3.5, line 6: Delete "0.046 to 0.047" and substitute "0.0455 to 0.0475".

PAGE 7

Paragraph 6.2, delete in its entirety and substitute the following:

6.2 Ordering data. Purchasers should select the preferred options permitted herein and include the following:

(a) Title, number, and date of this specification.
(b) Certificate of compliance when required (see 3.2).
(c) Whether wood-cased electrographic pencils, or leads for mechanical pencils are required (see 3.4 and 3.5).
(d) Inspection and testing responsibility, if other than specified in 4.1.
(e) Level of packaging and packing and any special marking required (see 5.2, 5.3, and 5.4).
