INTERIM REVISION OF
Fed. Spec. SS-S-71a
August 28, 1942

# INTERIM FEDERAL SPECIFICATION

## SAND, FINE, AGGREGATE

**This Interim Federal Specification was developed by the General Services Administration, Federal Supply Service, Washington, D. C. 20405, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity.**

**The General Services Administration has authorized the use of this Interim Federal Specification as a valid exception to Federal Specification SS-S-71a, dated August 28, 1942.**

1. SCOPE AND CLASSIFICATION

1.1 Scope. This specification covers fine aggregate sand.

1.2 Classification.

1.2.1 Grading. Sand shall be of the following gradings, as specified (see 6.2):

Grading

No. 1
No. 2
No. 3

2. APPLICABLE DOCUMENTS

2.1 Specifications and standards. The following documents of the issue in effect on date of invitation for bids or request for proposal, form a part of the specification to the extent specified herein:

(Activities outside the Federal Government may obtain copies of Federal Specifications, Standards, and Handbooks as outlined under General Information in the Index of Federal Specifications and Standards and at the prices indicated in the Index. The Index, which includes cumulative monthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(Single copies of this specification and other product specifications required by activities outside the Federal Government for bidding purposes are available without charge at the General Services Administration Regional Offices in Boston, New York, Washington, D. C., Atlanta, Chicago, Kansas City, Mo., Fort Worth, Denver, San Francisco, Los Angeles, and Seattle, Wash.

(Federal Government activities may obtain copies of Federal Specifications, Standards, and Handbooks and the Index of Federal Specifications and Standards from established distribution points in their agencies.)

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposal shall apply:

American Society for Testing and Materials (ASTM) Standards:

C 88- Soundness of Aggregates by Use of Sodium Sulfate or Magnesium Sulfate.
C 125- Terms Relating to Concrete and Concrete Aggregates.
C 136- Sieve or Screen Analysis of Fine and Coarse Aggregates.
D 75- Sampling Stone, Slag, Gravel, Sand, and Stone Block for Use as Highway Materials.
D 1073- Fine Aggregate for Bituminous Paving Mixtures.

(Application for copies should be addressed to the American Society for Testing and Materials, 1916 Race St., Philadelphia, Pa. 19103.)

3. REQUIREMENTS

3.1 Each grading of sand shall meet the applicable requirements of ASTM D 1073, (see 4.3).

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements.

4.2 Sampling. Sampling of sand for visual examination, dimensional characteristics, and tests shall be in accordance with ASTM D 75.

4.3 Test Methods.

4.3.1 Grading. Test for grading shall be in accordance with ASTM C 136, (see 3.1).

4.3.2 Fineness modulus. The fineness modulus shall be determined in accordance with the definition of fineness modulus given in ASTM C 125, (see 3.1).

4.3.2.1 Sieve analysis. The sieve analysis for fineness modulus shall be determined in accordance with ASTM C 136, (see 3.1).

4.3.3 Soundness. Test for soundness shall be determined in accordance with ASTM C 88, (see 3.1).

4.3.4 Inspection of preparation for delivery. Not applicable

5. PREPARATION FOR DELIVERY

Not applicable

6. NOTES

6.1 Intended use. The sand covered by this specification is intended for use as fine aggregate for bituminous paving mixtures.

6.2 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents:

(a) Title, number, and date of this specification.
(b) Grading of sand required, (see 1.2.1).
