MIL-P-60312C (AR)
AMENDMENT 1
27 February 1978

MILITARY SPECIFICATION

PARTS, MOLDED, PLASTIC FOAM, POLYSTYRENE

(FOR USE WITH AMMUNITION)

THIS This amendment forms a part of Military Specification MIL-P-60312 C (PA)
DATED 5 JUNE 1975

PAGE 1

3.6: Add the following sentence:

"Excessive solids in the coating will cause a noticeable wax-type residue in the molded part. If this occurs, the coating solution should be diluted further until the wax-type residue is no longer excessive, but sufficient to meet the static potential requirement".
