MIL-P-60422
AMENDMENT 1
3 February 1970

MILITARY SPECIFICATION

PROPELLANT M30A1 (M30E1)

FOR USE IN CHARGE PROPELLING 105MM, XM176

FOR CARTRIDGE, HE, XM548E1 FOR CANNON

M2A2, M103 and M137

This amendment forms a part of Military Specification MIL-P-60422, dated 28 July 1967.

Title, Paragraph 2.1, Paragraph 3.2, and Paragraph 6.5-Delete "Howitzer M101, M102 and M108 and substitute "Cannon M2A2, M103 and M137".

Paragraph 3.2.3 - Delete "115 percent of the rated maximum pressure" and substitute "37,000 psi (115 percent of the upper pressure limit of the projectile".

Add "Paragraph 4.2.2.1.1.3 - Type I and II propellant (Code No. 06001). If type one and type two propellant is tested together from zone 3 through zone 7, the zone 3 pressure requirements shall not apply. Only zone 7 pressure criteria shall be used.
