COMMERCIAL ITEM DESCRIPTION

CAKE ROLL, FRESH OR CHILLED, JELLY OR CREAM-FILLED

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description.

Salient characteristics.

Fresh cake roll, jelly or cream-filled, chilled or non-chilled, ready-to-eat, shall be made by baking either a batter or foam unit or combination thereof. The baked cake shall not be soggy, burned, scorched or caramelized. When the cake is bisected vertically with a sharp knife, it shall show crumb, and filling, in a nearly symmetrical pattern and uniform texture from side-to-side. The cake and filling shall be free from fissures or cracks and shall have a moist mouth feel. The cake roll shall possess a flavor typical of the product and shall be free from objectionable flavors and odors. The filling shall not adhere to the packaging material. The filling shall be a jellied or preserved-type fruit or cream, made from a mixture of fruit, sugar, water (or other liquid), flavoring, egg whites (optional), or any additional ingredient which will produce a commercial-type filling. The flavor of the filling shall be indicated (e.g., vanilla-cream filled, strawberry jelly, etc.). When specified, the cake shall be garnished with any of the following: fruits, candied fruits, chocolate pieces, candy pieces, pecans, walnuts, spices or coconut, and (except spices) shall be characterized by appearing as separate, distinct, and identifiable pieces evenly distributed throughout the product when used either on the cake, in the filling, or both.

Jelly or cream-filled rolls with fillings having a pH of 4.5 or greater shall be cooled to a temperature 45°F or less within two hours after baking and shall remain at temperatures below 45°F until delivered. Cake rolls shall not be frozen and shall not be more than 24 hours old at time of receipt.

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics of this Commercial Item Description; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace. All deliveries shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Preservation, packaging, packing, labeling, and marking (as appropriate and applicable).

The cake roll shall be preserved, packaged, packed, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the contract or purchase order, shall be acceptable. Shipping containers shall comply with National Motor Freight or Uniform Freight Classification, as applicable. Exterior packs shall be marked with the month and year of production and, when applicable, the following precautionary statement:

KEEP REFRIGERATED (35°F to 45°F)

Notes.
