COMMERCIAL ITEM DESCRIPTION

PIES, FRESH OR CHILLED, SOFT-FILLED, READY-TO-EAT

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description.

Salient characteristics.

Fresh or chilled, soft-filled, one-crust, open-face pies shall be 8-, 9- or 10-inches in diameter and be of the type and weight used in Table I. The pies shall have semisolid fillings, prepared from fresh, frozen, canned, evaporated, or dried products and shall be not less than 0.75-inch thick. The filling shall be of a viscosity that will permit the baked pie to be sliced without the filling spreading more than 0.75 of an inch within 10 minutes and the pies shall not be watery or weep before or during serving. The pies shall have no ungelatinized pockets nor an uneven distribution of fillings. They shall not contain cracks or crevices or show evidence of separation from crust. The crust shall not be overbaked or soggy and shall have no off-flavors or off-odors. The fillings shall not be tough or rubbery, shall have no off-flavors or off-odors, and shall have a flavor typical of its kind. If meringue or whipped-type toppings are used, they shall be 1 inch or more in additional thickness, shall be white with a light golden brown surface color, when applicable, and shall not separate from the filling when cut. Pies with a pH greater than 4.5 shall be cooled to a temperature of 45°F or less within two hours after baking and maintained at temperatures below 45°F until delivered. Pies shall be not more than 24 hours old at time of delivery.

TABLE I. Sizes and weights of pies 1/

Pies	Minimum wts. for 8-inch pie	Minimum wts. for 9- or 10-inch pie
One-crust, open-face pies (other than nut pies, egg custard pies, and cheese pies)	24 oz	36 oz
Meringue pies	20 oz	34 oz
Chiffon, cream pies	18 oz	27 oz
Nut pies, egg custard pies and cheese pies	20 oz	32 oz

TABLE I. Sizes and weights of pies 1/ (cont'd)

Pies	Minimum wts. for 8-inch pie	Minimum wts. for 9- or 10-inch pie
Boston pies	18 oz	30 oz

1/ The thickness of the bottom-baked crust shall not be greater than 3/16 inch for regular crust. For graham cracker crust and crumb-top the thickness shall not be greater than 1/4 inch.

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics of this Commercial Item Description; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace. All deliveries shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Preservation, packaging, packing, labeling, and marking (as appropriate and applicable).

The pies, fresh or chilled shall be preserved, packaged, packed, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the contract or purchase order, shall be acceptable. Shipping containers shall comply with National Motor Freight or Uniform Freight Classification, as applicable.
