COMMERCIAL ITEM DESCRIPTION

NECTARS, FRUIT, CANNED (APRICOT, PEAR, AND PEACH)

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description.

This Commercial Item Description (CID) covers fruit nectars, packed in commercially acceptable containers, suitable for use by the Federal Government

Salient characteristics.

Nectars are prepared by blending fruit, water, sweeteners, and optional ingredients to produce a viscous liquid. Acetic acid or vinegar shall not be used. Nectars shall be of the following types·

Types.

Type I - Apricot
Type II - Pear
Type III - Peach

Ingredients: **Fruit ingredients** shall be from ripe, sound, fresh fruit of the varieties commonly used for this product, or concentrates therefrom. The fruit ingredients shall contain finely divided insoluble fruit solids **Sweetening ingredients** shall be sugar, invert sugar syrup, dextrose, corn

Beneficial comments, recommendations, additions, deletions, clarifications, etc., and any data which may improve this document should be sent to: Head, Food Quality Assurance Staff, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Room 2506, South Building, P.O. Box 96456, Washington, DC 20090-6456.

syrup, dried corn syrup, glucose syrup, or other commercially acceptable sweetener **Optional ingredients** shall be lemon juice, citric acid, malic acid, fumaric acid or ascorbic acid When required in the solicitation, contract, or purchase order, the product shall be fortified with Vitamin C

Texture: The nectars shall have a smooth texture.

Consistency: The nectars shall be such as to flow freely

Color: Good characteristic color, free from any slight brown or dull color due to scorching or other causes.

Flavor: Pleasing flavor typical of the type of fruit specified

Defects: Practically free from scorched, green, or other undesirable flavor and odors Shall not contain seed, pits, or foreign materials

The product shall be packed in hermetically sealed containers and shall be sufficiently processed by heat to assure adequate sterilization The canned nectars shall be cooled prior to stacking to prevent scorching

Analytical requirements.

The apparent viscosity of the products shall be such that the time of flow is not less than 30 seconds. In addition, the nectars shall conform to the following:

Type	Soluble solids (Degrees brix)	pH	Total acidity (Range) (g/100mL juice) (calculated as anhydrous citric acid)
Apricot	14° - 16°	3 6 - 4.0	0 3 - 0 6
Pear	13° - 16°	3 6 - 4.0	0 1 - 0 5
Peach	13° - 16°	3 6 - 4 0	0.2 - 0.5

Chemical analysis shall be made in accordance with the following methods in the Official Methods of Analysis of the AOAC.

Test	Method number
Apparent Viscosity	967.16
Soluble Solids	932 12
pH	981.12
Total Acidity (Range)	950 15

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics and requirements of this CID, conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories or possessions, and is sold on the commercial market The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace. Delivered product shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Quality assurance.

When the solicitation, contract, or purchase order requires that product quality or acceptability or both be determined, the Processed Products Branch (PPB), Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, shall be the certifying activity and shall make the determination in accordance with applicable PPB procedures The product shall be examined or analyzed or both in accordance with applicable provisions in the CID, and when applicable, the United States Standards for Condition of Food Containers.

Preservation, packaging, packing, labeling, and marking.

The fruit nectars shall be preserved, packaged, packed, labeled, and cases marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with the National Motor Freight Classification or Uniform Freight Classification, as applicable
