COMMERCIAL ITEM DESCRIPTION

ORANGES, CANNED (MANDARIN)

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description.

This Commercial Item Description (CID) covers mandarin oranges, packed in commercially acceptable containers, suitable for use by the Federal Government.

Salient characteristics.

The product shall conform to the following styles, sizes, packing media, and designations specified in the solicitation, contract, or purchase order.

Styles.

Style I	- Whole	- Consists of practically intact fruit segments.
Style II	- Broken	- Consists of portions of segments which retain at least one-half of the original size
Style III	- Pieces	- Consists of small portions of segments large enough to remain on a wire mesh screen of 2 mm diameter openings.

Sizes. (whole segment only)

Size A	- Large	- 20 or fewer whole segments per 100 grams of fruit
Size B	- Medium	- 21 to 35 whole segments per 100 grams of fruit.
Size C	- Small	- 36 or more whole segments per 100 grams of fruit.
Size D	- Mixed	- A mixture of two or more single sizes.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: Head, Food Quality Assurance Staff, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Room 2506, South Building, P.O. Box 96456, Washington, DC 20090-6456.

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics and requirements of this CID; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories or possessions; and is sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace. Delivered product shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Quality assurance.

When the solicitation, contract, or purchase order requires that product quality or acceptability or both be determined, the Processed Products Branch (PPB), Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, shall be the certifying activity and shall make the determination in accordance with applicable PPB provisions. The product shall be examined or analyzed or both in accordance with applicable provisions in the CID, and when applicable, the United States Standards for Condition of Food Containers.

Preservation, packaging, packing, labeling, and marking.

The mandarin oranges shall be preserved, packaged, packed, labeled, and cases marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with the National Motor Freight Classification or Uniform Freight Classification, as applicable.

For Department of Defense procurements (Only).

The following requirements are applicable when specified by the contracting officer.

A. Commercial packaging. The product shall be packaged in a 603 x 700 (No. 10) can in accordance with good commercial practice.

B. Commercial packing. Six cans of product shall be packed in fiberboard boxes complying with the National Motor Freight Classification or Uniform Freight Classification, as applicable.

C. Export packaging. The product shall be packaged in a 603 x 700 (No. 10) can in accordance with good commercial practice

D. Export packing. Six cans of product shall be packed in a fiberboard box constructed, closed, and reinforced in accordance with Style RSC, Grade V3c, V3s, or V4s of PPP-B-636. Reinforcement shall be restricted to nonmetallic strapping or pressure-sensitive adhesive, filament-reinforced tape in accordance with the appendix of PPP-B-636.

E. Unit loads (commercial and export). Shipping containers shall be arranged in unit loads in accordance with MIL-L-35078. When unit loads are strapped, the strapping shall be limited to nonmetallic strapping, except for Type II, Class F loads.

F. Labeling (commercial and export). Labeling of cans shall be in accordance with good commercial practice and be in compliance with the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

G. Marking (commercial and export). Marking of shipping containers and unit loads shall be in accordance with MIL-STD-129.

Notes.

Purchasers should specify:

- Product style, size, packing media, and designation (as required)
- Desired can size and net weight
- Country of origin (optional)
- Labeling requirements, if different from commercial practice
