COMMERCIAL ITEM DESCRIPTION

JUICE, LIME, FROZEN, AND FROZEN CONCENTRATE FOR LIMEADE

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description in preference to Federal Specification Z-F-1743/8.

This Commercial Item Description (CID) covers frozen lime juice and frozen concentrate for limeade, packed in commercially acceptable containers, suitable for use by the Federal Government.

Salient characteristics.

The product shall conform to one of the following types as specified in the solicitation, contract, or purchase order.

Types.

Type I - Frozen lime juice without added sweetening ingredients
Type II - Frozen concentrate for limeade (with added sweetening ingredients)

Type I - Frozen lime juice shall be prepared from fresh, sound, mature, and thoroughly cleansed fruit of one or more varieties of the Species Citrus aurantifolia without added sweetening ingredients Seven and one-half fluid ounces (221.8 mL) of lime juice and seven avoirdupois ounces (198.4 g) of sugar diluted with 56 fluid ounces (1.656 L) of water at 50 ± 5°F (10°C ± 3°C) shall meet the requirements of U.S. Grade A of the United States Standards for Grades of Frozen Concentrate for Limeade.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: Head, Food Quality Assurance Staff, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Room 2506, South Building, P.O. Box 96456, Washington, DC 20090-6456.

Preservation, packaging, packing, labeling, and marking.

The frozen lime juice or the frozen concentrate for limeade shall be preserved, packaged, packed, labeled, and cases marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with National Motor Freight Classification or Uniform Freight Classification, as applicable.

For Department of Defense procurements (Only).

The following requirements for Type I are applicable when specified by the contracting officer

A. **Commercial packaging**. Thirty fluid ounces (887.2 mL) of product shall be packaged in a metal, composite, or plastic can in accordance with good commercial practice.

B. **Commercial packing**. Twelve cans of product shall be packed in a container complying with the Uniform Freight Classification, as applicable, except metal fasteners shall not be used in the final closure of the fiberboard boxes.

C. **Export packaging**. Thirty fluid ounces (887.2 mL) of product shall be packaged in a metal, composite, or plastic can in accordance with good commercial practice.

D. **Export packing**. Twelve cans of product shall be packed in a snug-fitting fiberboard box constructed and closed in accordance with Style RSC or RSC-L, as applicable, Grade V3c, V3s, or V4s of PPP-B-636. Each shipping container packed with composite or plastic cans shall have the inside of the container fitted with a box liner conforming to Type CF, Class Weather-Resistant, Variety DW, Grade V15c of PPP-B-636. Each fiberboard box shall be reinforced with nonmetallic strapping or pressure-sensitive adhesive, filament-reinforced tape in accordance with the appendix of PPP-B-636.

E. **Unit loads (commercial and export)**. Shipping containers shall be arranged in unit loads in accordance with MIL-L-35078. When unit loads are strapped, strapping shall be limited to nonmetallic strapping, except for Type II, Class F loads

F. **Labeling (commercial and export)**. Labeling of cans shall be in accordance with good commercial practice and be in compliance with the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder. In addition, the following preparation instructions shall appear on cans:
