COMMERCIAL ITEM DESCRIPTION

SYRUP

The U.S. Department of Agriculture (USDA) has authorized the use of this Commercial Item Description.

1. SCOPE. This Commercial Item Description (CID) covers syrup packed in commercially acceptable containers, suitable for use by Federal, State, local governments, and other interested parties; and as a component of operational rations.

2. PURCHASER NOTES.

2.1 Purchasers *shall specify* the following:

- Type(s), style(s), and flavor(s) of syrup required (Sec. 3).
- When analytical requirements are different than specified (Sec. 6.1).
- When analytical requirements need to be verified (Sec. 6.2).
- Manufacturer's/distributor's certification (Sec. 9.2) or USDA certification (Sec. 9.3).

2.2 Purchasers *may specify* the following:

- Manufacturer's quality assurance (Sec. 9.1 with 9.1.1) or (Sec. 9.1 with 9.1.2).
- Packaging requirements other than commercial (Sec. 10).

3. CLASSIFICATION. The syrup shall conform to the following list which shall be as specified in the solicitation, contract, or purchase order.

Types, styles, and flavors.

Type I - Syrup, blended, corn, high fructose (for baking and cooking)
Type II - Syrup, blended, corn and refiners' (for baking and cooking)
Type III - Syrup, blended, invert and sugar syrup (sucrose) (for baking and cooking)
Type IV - Syrup, table (for pancakes, waffles, etc.)

AMSC N/A **FSC 8925/8940**

Check the source to verify that this is the current version before use.

Style 1 - Regular calorie (Type IV only)
Style 2 - Lite or Light (21 CFR § 101.13, Type IV only)

Flavor A - Imitation maple (Type IV only)
Flavor B - Blueberry (Type IV only)
Flavor C - Strawberry (Type IV only)
Flavor D - Butter maple (Type IV only)
Flavor E - Other (Type IV only)

4. MANUFACTURER'S/DISTRIBUTOR'S NOTES. Manufacturer's/distributor's products *shall meet* the requirements of the:

- Salient characteristics (Sec. 5).
- Analytical requirements: *as specified by the purchaser* (Sec. 6).
- Manufacturer's/distributor's product assurance (Sec. 7).
- Regulatory requirements (Sec. 8).
- Quality assurance provisions: *as specified by the purchaser* (Sec. 9).
- Packaging requirements other than commercial: *as specified by the purchaser* (Sec. 10).

5. SALIENT CHARACTERISTICS.

5.1 Processing. The syrup shall be heat processed (pasteurized) in accordance with good commercial practice (21 CFR Part 110). Either hot fill or pasteurization in the container is acceptable.

5.2 Finished Product. The syrup shall be clean, clear, free from fermentation, and free from any objectionable flavor, odor, or sediment.

5.2.1 Type I - Syrup, blended, corn, high fructose. Type I syrup shall contain no added coloring, and shall be flavored with vanillin, U.S.P. grade, or ethyl vanillin, or any combination of the two. A defoaming agent that is approved by the Food and Drug Administration (21 CFR § 173.340) may be used at the level permitted. The syrup shall be composed of corn syrup, high fructose corn syrup, water, and flavorings, with the following minimum percentages of corn syrups:

	Minimum percentage (by weight)
Corn syrup (42 Dextrose Equivalent)	79
Corn syrup (55 percent high-fructose)	14

Check the source to verify that this is the current version before use.

5.2.2 Type II - Syrup, blended, corn and refiners'. Type II syrup shall be formulated from not less than 10 nor more than 20 percent (solids basis) of fancy grade refiners' syrup, blended with corn syrup.

5.2.3 Type III - Syrup, blended, invert and sugar syrup (sucrose). Type III syrup shall be formulated from equal parts of invert sugar and sugar syrup (solids basis).

5.2.4 Type IV - Syrup, table. Type IV, Flavor A, B, C, D or E, syrup shall possess a flavor and color characteristic of that specified. The syrup shall be manufactured in accordance with the U.S. Standard of Identity for Table Sirup, 21 CFR § 168.180. Flavor A, imitation maple, shall be colored to simulate the United States Standards for Grades of Table Maple Sirup, U.S. Grade A. The color shall not be lighter than light amber nor more than slightly darker than dark amber, however, it may not be off-color.

5.2.5 Foreign material. All ingredients and finished product shall be clean, sound, wholesome, and free from evidence of rodent or insect infestation.

6. ANALYTICAL REQUIREMENTS.

6.1 Analytical requirements. Unless otherwise specified in the solicitation, contract, or purchase order, the analytical requirements for the syrup shall be as follows:

Type and style	Solids	Maximum ash (Percent)	Color
Type I	Minimum 70 percent Brix solids	0.5	Not darker than "Water White" **1/**
Type II	Minimum 72 percent Brix solids	1.0	--
Type III	Minimum 76 percent Brix solids	0.2	--

1/ Color shall be determined using Color Standards for "Extracted Honey" developed by the U.S. Department of Agriculture.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T08:32Z
Check the source to verify that this is the current version before use.

Type and style	Solids	Maximum ash (Percent)	Color
Type IV, Style 1	Minimum 65 percent Brix solids	--	Not lighter than "Light Amber" nor more than slightly darker than "Dark Amber" and not off-color **2/**
Type IV, Style 2	Less than 44 percent Brix solids	--	Not lighter than "Light Amber" nor more than slightly darker than "Dark Amber" and not off-color **2/**

2/ Color shall be determined using Color Standards for "Table Maple Sirup" developed by the U.S. Department of Agriculture.

6.2 Product verification. When USDA verification of analytical requirements is specified in the solicitation, contract, or purchase order, the following procedures will be followed.

6.2.1 Sampling procedures. USDA inspection service will select the number of product containers based on USDA inspection service sampling procedures and plans.

6.2.2 Composite sample. Analytical testing shall be performed on a composite sample. The composite sample shall be 454 grams (1 pound) and prepared from subsamples drawn from randomly selected containers. The number of subsamples used to create the composite shall be based on USDA procedures.

6.3 Analytical testing. When specified in the solicitation, contract, or purchase order, the analyses shall be in accordance with the following methods from the Official Methods of Analysis of the AOAC International:

Test	Method/Test
Solids (Brix)	932.14C
Ash	900.02

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T08:32Z
Check the source to verify that this is the current version before use.

Test	Method/Test
Color, Type I	Visual Comparison Test (As described by U.S. Standards for Grades of Extracted Honey, Section 52.1398) 3/
Color, Type IV	Visual Comparison Test (As described by U.S. Standards for Grades of Table Maple Sirup, Section 52.5964) 3/

3/ The sample is placed in colorless cells of optical glass or plastic (internal width of 0.254 cm [0.10 inch] and outside diameter of 3.651 cm [1-7/16 inch] by 8.89 cm [3-1/2 inches]) and compared with U.S. Department of Agriculture permanent glass color standards.

7. MANUFACTURER'S/DISTRIBTUTOR'S PRODUCT ASSURANCE. The manufacturer/distributor shall certify that the syrup provided shall meet the salient characteristics of this CID, conform to their own specifications, standards, and quality assurance practices, and be the same syrup offered for sale in the commercial market. The purchaser reserves the right to require proof of conformance.

8. REGULATORY REQUIREMENTS. The delivered syrup shall comply with all applicable Federal, State, and local mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sale of syrup within the commercial marketplace. Delivered syrup shall comply with all applicable provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

9. QUALITY ASSURANCE PROVISIONS. *Purchaser shall specify 9.2 or 9.3; purchaser may specify 9.1 with 9.1.1 or 9.1 with 9.1.2.*

9.1 Manufacturer's quality assurance. When required in the solicitation, contract, or purchase order, the product manufacturer shall be required to provide evidence, by certificate, that the manufacturing plant has undertaken one of the following quality assurance measures within 12 months prior to providing a bid, or no later than 10 business days from the date of awarding of the contract. Failure to provide this documentation within the proper time frame may result in the contract being terminated for cause.

9.1.1 Plant systems audit. A plant systems audit (PSA) conducted by USDA, Federal Grain Inspection Service (FGIS), Agricultural Marketing Service (AMS), or another audit performed by a third party auditing service is required within 12 months prior to the date of the awarding of the contract.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T08:32Z
Check the source to verify that this is the current version before use.

(An FGIS or AMS PSA verifies the manufacturer's capability to produce products in a clean, sanitary environment in accordance with Title 21 Code of Federal Regulations Part 110 - Current Good Manufacturing Practice in Manufacturing, Packing, or Holding Human Food; and verifies that the manufacturer has in place an internal quality assurance program. The FGIS or AMS PSA determines the manufacturer's ability to produce under this CID, if the products of interest are identified at the time of the PSA.)

9.1.2 Plant survey. A plant survey shall be conducted by USDA, FGIS, AMS, or another survey performed by a third party auditing service is required within 12 months prior to the date of the awarding of the contract. *(An FGIS or AMS plant survey audit verifies that, at the time of the survey, the manufacturer produces products in a clean, sanitary environment in accordance with Title 21 Code of Federal Regulations Part 110 - Current Good Manufacturing Practice in Manufacturing, Packing, or Holding Human Food.)*

9.2 Manufacturer's/distributor's certification. When required in the solicitation, contract, or purchase order, the manufacturer/distributor will certify that the finished syrup distributed meets or exceeds the requirements of this CID.

9.3 USDA certification. When required in the solicitation, contract, or purchase order that product quality and acceptability or both be determined, USDA, FGIS or AMS (depending on specific product) shall be the certifying agency. The agency inspectors shall certify the quality and acceptability of the syrup in accordance with agencies procedures which include selecting random samples of the packaged syrup, evaluating the samples for conformance with the salient characteristics of this CID and other contractual requirements, and documenting the findings on official score sheets and/or certificates. In addition when required in the solicitation, contract, or purchase order, agency inspectors will examine the syrup for conformance to the United States Standards for Condition of Food Containers in effect on the date of the solicitation.

10. PACKAGING. Preservation, packaging, packing, labeling, and case marking shall be commercial unless otherwise specified in the solicitation, contract, or purchase order.

11. USDA INSPECTION NOTES. When Section 9.3 is specified in the solicitation, contract, or purchase order, USDA certification shall include evaluation of the quality and condition of samples of packaged syrup and compliance with requirements in the following areas:

- Salient characteristics (Sec. 5)
- Analytical requirements *when specified in the solicitation, contract, or purchase order* (Sec. 6.2). When USDA analytical testing is specified, FGIS or AMS inspection personnel shall select samples and submit them to the USDA, FGIS or AMS laboratory for analysis.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T08:32Z
Check the source to verify that this is the current version before use.

- Packaging requirements (Sec. 10 or as specified in the solicitation, contract, or purchase order).

12. REFERENCE NOTES.

12.1 USDA certification contacts.

12.1.1 Federal Grain Inspection Service. For USDA, FGIS certification, contact the **Branch Chief, Standards and Procedures Branch, FGIS, GIPSA, USDA, STOP 3632, 1400 Independence Avenue, SW, Washington, DC 20250-3632, telephone (202) 720-0252, Fax (202) 720-1015, or via E-mail: jgiler@gipsadc.usda.gov.**

12.1.2 Agricultural Marketing Service. For USDA, AMS certification, contact the **Branch Chief, Processed Products Branch (PPB), Fruit and Vegetable Programs (FVP), AMS, USDA, STOP 0247, 1400 Independence Avenue, SW, Washington, DC 20250-0247, telephone (202) 720-4693, Fax (202) 690-1527, or via E-mail: james.rodeheaver@usda.gov.**

12.2 Analytical testing and technical information contacts.

12.2.1 Federal Grain Inspection Service. For USDA, FGIS analytical information contact**: TSD, Analytical Reference, and Testing Branch, FGIS Technical Center, 10383 North Executive Hills Blvd., Kansas City, Missouri 64153-1394, telephone (816) 891-0444 or via E-mail: polston@gipsakc.usda.gov. For USDA, FGIS technical information contact: Standards and Procedures Branch, FGIS, GIPSA, USDA, STOP 3632, Washington, DC 20250-3632 (202) 720-1732, Fax (202) 720-1015, or via E-mail: hgreenwo@gipsadc.usda.gov.**

12.2.2 Agricultural Marketing Service. For USDA, AMS technical information on analytical testing, contact the **Branch Chief, Technical Service Branch, Science and Technology Programs (S&TP), AMS, USDA, STOP 0272, 1400 Independence Avenue, SW, Washington, DC 20250-0271, telephone (202) 690-0621, or via E-mail: anita.okrend@usda.gov.**

12.3 Sources of documents.

12.3.1 Sources of information for nongovernmental documents are as follows:

Copies of the Official Methods of Analysis of the AOAC International may be obtained from: **AOAC International, 481 North Frederick Avenue, Suite 500, Gaithersburg, MD 20877, telephone (301) 924-7077. Internet address: http://www.aoac.org.**
