MATERIAL: Borosilicate glass in accordance with Federal Specification DD-G-541, Type I, Class A.

DESIGN: Flask shall have a round bottom with a long neck terminating in a beaded or tooled rim, in accordance with Federal Specification NNN-F-240, Type VI.

Each flask shall have a marking area located in accordance with commercial practice.

Each flask shall be permanently and legibly marked with manufacturer's name or trademark and capacity.

Mouths shall be designed to accommodate standard rubber stoppers as specified in Federal Specification ZZ-S-751.

NOTES:
1. Flasks are not supplied with stoppers.
2. For design feature purposes this standard takes precedence over procurement documents referenced herein.
3. Referenced documents shall be of the issue in effect on date of invitations for bid.
