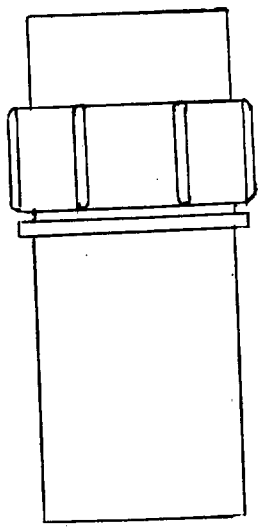
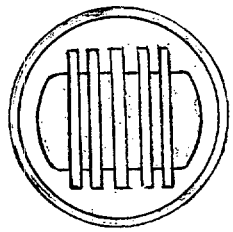
FED. SUP CLASS
6640





VIEW OF INSIDE
(TOP REMOVED)

MATERIAL: The mailer shall be made of polyethylene plastic, natural color and in accordance with Federal Specification, L-P-390.

DESIGN: The mailer shall be cylindrical in shape with internal grooves that will accept 5 to 10 microscope slides, 25 by 75 mm. It shall have a deep screw cap that has a small loop for attachment of wired tags. The design shall be such that approximately 12 mm of the slide will project from the container when the cap is removed.

NOTE: Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.

APPROVED 4 AUG 1982 REVISED
