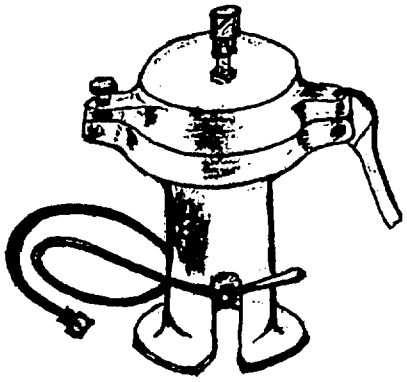
FED. SUP CLASS
6640



MS36507-1 (3 oz size)
MS36507-2 (12 oz size)

MATERIAL: The material shall be chromium plated brass or other metal of equal strength and durability, copper tubing, and brass fittings.

DESIGN: The machine shall be bench mounted type with inlet valve and hinged lid. It shall be so constructed to convert carbon dioxide gas into dry ice disc of 3 or 12 oz size.

Machine shall be complete with strainer, tubes and connectors for attachment to carbon dioxide cylinder.

INTENDED USE: To produce dry ice disc for laboratory purposes.

NOTES:
1. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.

USER ACTIVITIES: ARMY - MD, DM
NAVY - MS

REVIEWER ACTIVITIES: ARMY - ME
NAVY - OS
AIR FORCE - 03

This military standard is approved for use by all Departments and Agencies of the Department of Defense. Selection for all new engineering and design applications and for repetitive use shall be made from this document.
